Litton Industrial Automation Systems, Inc., New Britain Machine, New Britain, CT, and Operating in the Following State, TA-W-24,446A Texas; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 USC 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on July 27, 1990, applicable to all workers of the subject firm. The certification notice was published in the **Federal Register** on August 9, 1990 (55 FR 32504).

At the request of one of the workers, the Department reviewed the certification for workers of the subject firm. The findings show an installation and sales office in Houston, Texas which experienced a decline in demand for its services from the subject firm.

The intent of the Department's certification is to include all workers

who were adversely affected by increased imports. Accordingly, the Department is amending the certification to include the operations in Texas.

The amended notice applicable to TA-W-24,446 is hereby issued as follows:

All workers and former workers of Litton Industrial Automation Systems, Incorporated (New Britain Machine), New Britain, Connecticut and operating in the state of Texas who became totally or partially separated from employment on or after September 10, 1989 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C., this 14th day of March 1995.

Sanofi Bio Industries Wapato, WA; Notice of Revised Determination on Reconsideration

On December 23, 1994, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the former workers of the subject firm. The notice was published in the **Federal Register** on January 4, 1995 (60 FR 481).

Investigation findings show that the workers produced fruit juice concentrate. All production of fruit juice concentrate ceased in November, 1993 when all the workers were laid off.

New findings on reconsideration show that a major customer increased its purchases of imported fruit juice concentrate while substantially decreasing its purchases from Sanofi Bio Industries in 1993.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that workers at Sanofi Bio Industries in Wapato, Washington were adversely affected by increased imports of articles that are like or directly competitive with the fruit juice concentrate previously produced at Sanofi Bio Industries in Wapato, Washington. In accordance with the provisions of the Act, I make the following revised determination for workers of Sanofi Bio Industries in Wapato, Washington.

All workers of Sanofi Bio Industries in Wapato, Washington, who became totally or partially separated from employment on or

after July 20, 1993 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C., this 17th day of March 1995.

Scott Paper Co., Oconto Falls, WI; Notice of Negative Determination Regarding Application for Reconsideration

By an application dated February 21, 1995, a group of former workers requested administrative reconsideration of the subject petition for trade adjustment assistance. The denial notice will soon be published in the **Federal Register**.

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

- (1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;
- (2) if it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or
- (3) if in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The findings show that the subject plant produced paper towels.

The former workers submitted documentation that Scott Paper is a world-wide company and is increasing its capacity for paper products in Mexico and recently completed a deal to produce paper products in China.

The Department's denial was based on the fact that U.S. imports of sanitary paper products were negligible (less than one percent of U.S. shipments) in the last three years through 1994.

The findings show the worker separations at Scott Paper's Oconto Falls facility were the result of a production transfer to other domestic corporate facilities to realize freight advantages and be closer to geographic market demand.

The Department would entertain a new petition when there is evidence of increased imports of paper towels.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or

misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, DC, this 16th day of March 1995.
