DEPARTMENT OF COMMERCE

Agency Form Under Review by the Office of Management and Budget

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: 1995 Census Test - Integrated Coverage Measurement (Dual System Estimation Follow-up Questionnaire).

Form Number(s): DG-1301.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 525.

Number of Respondents: 2,100.

Avg Hours Per Response: 15 minutes.

Needs and Uses: Prompted by the need to improve estimation techniques during the decennial census, the Census Bureau has developed an Integrated Coverage Measurement (ICM) approach to be tested during the 1995 Census Test. The ICM approach will utilize a separately sampled group of blocks within the 1995 Census Test sites which will be independently listed and then interviewed. We will reconcile differences between the independent roster obtained during the ICM interviews and the census test results. This reconciliation will allow us to measure our coverage of persons in missed housing units and coverage of persons missed within housing units enumerated in the census test. Two techniques for estimating population coverage will be used in the 1995 Census Test -- Census Plus and Dual System Estimation (DSE). In DSE, a sample of persons counted in the ICM enumeration will be matched to regular census test results in the ICM sample blocks. Matching will be done

internally. However, follow-up will be necessary in cases where the information we have is insufficient to determine a person's residence or match status.

Affected Public: Individuals or households.

Frequency: One time only.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Maria Gonzalez, (202) 395-7313.

Copies of the above information collection proposal can be obtained by calling or writing Gerald Taché, DOC Forms Clearance Officer, (202) 482-3271, Department of Commerce, room 5312, 14th and Constitution Avenue, NW, Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Maria Gonzalez, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: March 21, 1995.

Agency Form Under Review by the Office of Management and Budget

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: 1995 Census Test - Coverage Study.

Form Number(s): DG-1300.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 160 hours.

Number of Respondents: 960.

Avg Hours Per Response: 10 minutes.

Needs and Uses: The Census Bureau is testing many new methods during the 1995 Census Test to enhance coverage and contain costs for the Year 2000 Decennial Census. Four of those new methods are the "Be counted" forms, refined rostering questions, the use of administrative records to improve coverage (simulated use only; administrative records will not be used to add persons to the census test count), and the use of automated matching and unduplication software. In order to evaluate these methods, the Census Bureau plans to conduct a Coverage Study in two of the three 1995 Census Test sites -- Oakland, CA and Paterson, NJ. The Coverage Study is designed to measure the degree to which each

method introduced or, in the case of administrative records, may introduce erroneous enumerations (EEs) into census test counts and to determine the demographic characteristics of the EEs. Enumerators will visit a sample of households to verify residency status and to collect demographic characteristics about persons that were either added or deleted from census test counts by means of one of the above methods.

Affected Public: Individuals or households.

Frequency: One time only.

Respondent's Obligation: Mandatory.
