Pursuant to the Federal Advisory Committee Act, Public Law 92-463,

notice is hereby given that various Committees and Subcommittees of the Science Advisory Board will meet as follows:

(1) *The Science Advisory Board's (SAB's) Executive Committee*, will conduct a meeting on Tuesday and Wednesday, April 10-11, 1995. The meeting will be held in the Administrator's Conference Room 1103 West Tower at the Environmental Protection Agency, 401 M Street SW, Washington, DC 20460. It will begin at 8:30 a.m. and adjourn not later than 5:00 p.m. on each day.

Representatives of the Agency's Management and Operations staff will report on their findings in a study of the operation of the Office of the SAB.

Additional topics on the agenda include status reports on the Agency's ecological risk assessment guidelines and on the Agency's development of new methodology for economic analysis. The Deputy Administrator will also seek the EC's views on the Presidential-initiated review of Agency's regulations. Representatives of various offices will provide background information on the emerging state of environmental protection at the state, national, and international levels.

The meeting is open to the public. Any member of the public wishing further information concerning the meeting or who wishes to submit comments should contact Dr. Donald G. Barnes, Designated Federal Official for the Executive Committee (1400), U.S. Environmental Protection Agency, Washington, DC 20460 at 202-260-4126; FAX 202-260-9232; and INTERNET barnes.don@epamail.epa.gov. Limited unreserved seating will be available at the meeting.

(2) *The Acid Deposition Effects Subcommittee* of the Ecological Processes and Effects Committee (EPEC) will meet on April 12-13, 1995, at the Quality Hotel Capitol Hill, 415 New Jersey Avenue, N.W., Washington, DC 20001, telephone (202) 638-1616. The purpose of the meeting is to review the Agency's draft Acid Deposition Standard Feasibility Study Report to Congress. The Subcommittee will meet 8:30 am to 5:00 pm on April 12 and from 8:00 am to 10:00 am on April 13.

The meeting will be open to the public, but seating will be on a first-come basis.

Background: The Report to Congress was mandated by Title IV of the Clean Air Act Amendments of 1990 and is intended to address the feasibility and effectiveness of an acid deposition standard to protect sensitive and critically sensitive aquatic and terrestrial resources. The report, which has been released by the Agency for public comment (**Federal Register**, February 10, 1995, vol. 60, no. 28, p. 7965; comment period subsequently extended to April 1), projects acid deposition and effects under varying scenarios using the Regional Acid Deposition Model (RADM) and the Model for Acidification of Groundwater in Catchments (MAGIC). Effects from both nitrogen and sulfur deposition are considered. The Charge to the Subcommittee includes the following questions: (1) Have the models been applied in a credible manner and/or within the bounds of applicability for the scientific analyses and assessments in the report? (2) Have the modeling results been appropriately integrated? In what ways might the integration be improved? (3) Are the conclusions drawn in the study consistent with the state of the science and the state of modeling? (4) What conclusions are insupportable or weak? For what reasons? How might they be improved? (5) Are there important conclusions from prior modeling reports that should be included in the report? (6) Have the scientific uncertainties associated with the conclusions drawn in the study been adequately characterized? If not, what approaches are suggested?

The purpose of the meeting is to receive a briefing on the Agency's development of draft Ecological Risk Assessment Guidelines, and to engage in a consultation with Agency staff on a proposal to establish a network of

ecosystem index sites as part of the Environmental Monitoring and Assessment Program (EMAP). The SAB has developed the consultation as a mechanism to advise the Agency on technical issues that should be considered in the development of regulations, guidelines or technical guidance before the Agency has taken a position.

(5) *The Hazardous Waste Identification Rule (HWIR) Subcommittee* of the SAB Executive Committee will meet on April 26-27, 1995, at the Governor's House Hotel, 1615 Rhode Island Ave., NW, Washington DC, 20036, telephone (202) 296-2100. Background: The purpose of the meeting is to review the Agency's draft multi-media, multi-pathway risk analysis being developed to support the proposed Hazardous Waste Identification Rule (HWIR); the purpose of HWIR is to specify those conditions under which materials designated as hazardous waste may be declassified as such and therefore no longer subject to the constraints of hazardous waste management. The Executive Committee established an ad hoc subcommittee for this review in order to adequately consider the multiple routes of fate, transport, and exposure of humans, plus ecological effects of wastes. The Charge to the Subcommittee includes examination of the approaches for assessing fate and transport of waste constituents, ecological exposure and effects, and human exposure and effects. In addition, the Agency has asked the Subcommittee to consider whether the approach taken for determining high-end estimates will produce roughly comparable levels of conservatism

across the different pathways and receptors being considered.

Additional Information: To obtain a copy of the review document, "Development of human health-based and ecologically-based exit criteria for the Hazardous Waste Identification Project (HWIP)," contact the RCRA Docket at (202) 260-9327. Background: The meeting, which is open to the public, will start at 9:00 a.m., and adjourn no later than 5:00 p.m. Its main purpose is to review reports drafted by the Committee on the resources for economic analysis at the Environmental Protection Agency, and on methodology for collecting information on the annual investment in pollution control capital equipment and operations. The Committee may also consult with Agency Staff from the Office of Policy, Planning and Evaluation (OPPE) on methodology underlying the OPPE "Cost of Clean" report.

Additional Information: An agenda for the meeting is available from the Science Advisory Board (1400F), U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460 (202-260-6552).
