DEPARTMENT OF COMMERCE

Agency Form Under Review by the Office of Management and Budget

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: 1995 Census Test - Integrated Coverage Measurement (Dual System Estimation Follow-up Questionnaire).

Form Number(s): DG-1301.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 525.

Number of Respondents: 2,100.

Avg Hours Per Response: 15 minutes.

Needs and Uses: Prompted by the need to improve estimation techniques during the decennial census, the Census Bureau has developed an Integrated Coverage Measurement (ICM) approach to be tested during the 1995 Census Test. The ICM approach will utilize a separately sampled group of blocks within the 1995 Census Test sites which will be independently listed and then interviewed. We will reconcile differences between the independent roster obtained during the ICM interviews and the census test results. This reconciliation will allow us to measure our coverage of persons in missed housing units and coverage of persons missed within housing units enumerated in the census test. Two techniques for estimating population coverage will be used in the 1995 Census Test -- Census Plus and Dual System Estimation (DSE). In DSE, a sample of persons counted in the ICM enumeration will be matched to regular census test results in the ICM sample blocks. Matching will be done

internally. However, follow-up will be necessary in cases where the information we have is insufficient to determine a person's residence or match status.

Affected Public: Individuals or households.

Frequency: One time only.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Maria Gonzalez, (202) 395-7313.

Copies of the above information collection proposal can be obtained by calling or writing Gerald Taché, DOC Forms Clearance Officer, (202) 482-3271, Department of Commerce, room 5312, 14th and Constitution Avenue, NW, Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent to Maria Gonzalez, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: March 21, 1995.

Agency Form Under Review by the Office of Management and Budget

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: 1995 Census Test - Coverage Study.

Form Number(s): DG-1300.

Agency Approval Number: None.

Type of Request: New collection.

Burden: 160 hours.

Number of Respondents: 960.

Avg Hours Per Response: 10 minutes.

Needs and Uses: The Census Bureau is testing many new methods during the 1995 Census Test to enhance coverage and contain costs for the Year 2000 Decennial Census. Four of those new methods are the "Be counted" forms, refined rostering questions, the use of administrative records to improve coverage (simulated use only; administrative records will not be used to add persons to the census test count), and the use of automated matching and unduplication software. In order to evaluate these methods, the Census Bureau plans to conduct a Coverage Study in two of the three 1995 Census Test sites -- Oakland, CA and Paterson, NJ. The Coverage Study is designed to measure the degree to which each

method introduced or, in the case of administrative records, may introduce erroneous enumerations (EEs) into census test counts and to determine the demographic characteristics of the EEs. Enumerators will visit a sample of households to verify residency status and to collect demographic characteristics about persons that were either added or deleted from census test counts by means of one of the above methods.

Affected Public: Individuals or households.

Frequency: One time only.

Respondent's Obligation: Mandatory.

OMB Desk Officer: Maria Gonzalez, (202) 395-7313.

Foreign-Trade Zones Board

[Docket A(32b1)-2-95; Docket A(32b1)-3-95]

Foreign-Trade Zone 124—Grammercy, Louisiana, Subzone 124C, Star Enterprise, (Crude Oil Refinery Complex); Foreign-Trade Zone 116—Port Arthur, Texas, Subzone 116A, Star Enterprise (Crude Oil Refinery Complex) Requests for Modification of Restrictions

Requests have been submitted to the Foreign-Trade Zones Board (the Board) by the South Louisiana Port Commission, grantee of FTZ 124, and the Foreign-Trade Zone of Southeast Texas, grantee of FTZ 116, pursuant to § 400.32(b)(1) of the Board's regulations, for modification of the restrictions in FTZ Board Orders 667 and 668 authorizing Subzones 124C and 116A at the crude oil refinery complexes of Star Enterprise in Convent, Louisiana, and in Jefferson/Hardin Counties, Texas. The requests were formally filed on March 22, 1995.

The FTZ Board approved subzone status for the Star Enterprise refineries

in 1993 (Subzone 124C, Board Order 667, 59 FR 60, 1/3/94; and Subzone 116A, Board Order 668, 59 FR 61, 1/3/94). The approvals were subject to certain standard restrictions, including one that required the election of privileged foreign status on incoming foreign merchandise.

The companies are now requesting that this restriction be modified so that they would have the option available under the FTZ Act to choose non-privileged foreign (NPF) status on foreign refinery inputs used to produce certain petrochemical feedstocks and by-products including the following: benzene, toluene, xylenes, hydrocarbon mixtures, distillates/residual fuel oils, kerosene, naphthas, ethane, propane, butane, ethylene, propylene, butylene, butadiene, petroleum coke, asphalt, sulfur, and sulfuric acid.

The requests cite the FTZ Board's recent decision in the Amoco, Texas City, Texas case (Board Order 731, 60 FR 13118, 3/10/95) which authorized subzone status with the NPF option noted above. In the Amoco case, the Board concluded that the restriction that precluded this NPF option was not needed under current oil refinery industry circumstances.

Public comment on the proposal is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is [30 days from date of publication].

A copy of the application and accompanying exhibits will be available for public inspection at the following location: Office of the Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Room 3716, 14th & Pennsylvania Avenue, NW., Washington, DC 20230.

Dated: March 22, 1995

Dennis Puccinelli,

Acting Executive Secretary.
