

[Docket No. RP95-80-001]

National Fuel Gas Supply Corp.; Notice of Supplemental Compliance Filing

March 22, 1995.

Take notice that on March 16, 1995, National Fuel Gas Supply Corporation (National) tendered a supplemental filing to its February 14, 1995, compliance filing in the above-captioned proceeding.

National states that this filing proposes to answer all outstanding concerns regarding its request for waiver of Section 21 of its FERC Gas Tariff, Third Revised Volume No. 1. National states that it requested waiver of Section 21 to the extent necessary to recover interest accrued between the time it is billed for upstream Account No. 186 and 191 costs and the time it receives payment from its customers, after the Commission authorizes the flow through.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests should be filed on or before March 28, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. CP95-271-000]

Questar Pipeline Co.; Notice of Request Under Blanket Authorization

March 22, 1995.

Take notice that on March 17, 1995, Questar Pipeline Company (Questar), 79 South State Street, Salt Lake City, Utah 84111, filed in Docket No. CP95-271-000, a request pursuant to § 157.205 of the Commission's Regulations under the Natural Gas Act (18 CFR 157.205) for authorization to construct and operate delivery point facilities on Questar's transmission system to serve the Western Market Center (WMC), under the authorization issued in Docket No. CP82-491-000 pursuant to Section 7 of the Natural Gas Act, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Questar proposes to construct and operate one 10-inch tap, approximately 1,250 linear feet of 10³/₄-inch pipeline and appurtenant facilities at an estimated cost of \$99,330. It states that the installation of the proposed facilities will allow Questar to deliver up to approximately 140 Mmcf per day to the WMC located in Lincoln County, Wyoming. Questar states that the WMC is a natural gas market hub where various pipeline companies tie into a single header facility. Questar submits that the header tie-in enables shippers to redirect natural gas, on a real-time basis, from one market to another. It is stated that the WMC is to be constructed, owned and operated by Overland Trail Transmission Company, an intrastate pipeline company, to provide service under § 311 of the Natural Gas Policy Act.

Questar explains that the proposed facilities will also serve as a receipt point, the installation and usage of which is automatically authorized pursuant to Questar's Part 157, Subpart F blanket certificate and by operation of the Commission's Regulations at 18 CFR 157.208(a).

Any person or the Commission's staff may, within 45 days after issuance of the instant notice by the Commission, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice of intervention and pursuant to § 157.205 of the Regulations under the Natural Gas Act (18 CFR 157.205) a protest to the request. If no protest is filed within the time allowed therefor, the proposed activity shall be deemed to be authorized effective the day after the time allowed for filing a protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request shall be treated as an application for authorization pursuant to Section 7 of the Natural Gas Act.

Lois D. Cashell,

Secretary.

BILLING CODE 6717-01-M

[Docket No. RP91-203-054]

Tennessee Gas Pipeline Co.; Notice of Filing Refund Report

March 22, 1995.

Take notice that on March 20, 1995, Tennessee Gas Pipeline Company (Tennessee), filed its report of refunds for the above-referenced dockets for the period September 1, 1993 through January 31, 1995.

Furthermore, in compliance with the Commission's February 25, 1995 order in Docket No. RP91-203-046, Tennessee states it is making revisions to its July 7, 1994 Refund Report which effectuated refunds for the period prior to Tennessee's restructuring (February 1, 1992 through August 31, 1993). Specifically, that order required Tennessee to make PTR fuel refunds in cash instead of in-kind, refund National Fuel Gas Supply an additional \$738,282, plus applicable interest, associated with errors on original refund for their T-1 contract, correct certain errors in the original refund report associated with PTR transportation, and continue to work with customers to the extent necessary to further verify their refund calculations. As outlined below, Tennessee states it has made PTR fuel refunds in cash, refunded National Fuel an additional \$750,419 on February 16, 1995, and corrected the original refund on October 28, 1994.

Tennessee states that copies of the refund report have been mailed to all affected state regulatory commissions and that customers were served with calculations supporting the refunds on the date which the refunds were made.

Any persons desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 385.211). All such protests should be filed before March 29, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,

Secretary.

[Project No. 11445-001 New York]

Adirondack Hydro Development Associates; Notice of Surrender of Preliminary Permit

March 22, 1995.

Take notice that the Adirondack Hydro Development Associates, permittee for the Delta Dam Project No. 11445, located on the Mohawk River, in Oneida County, New York, has requested that its preliminary permit be terminated. The preliminary permit was issued on February 7, 1994, and would have expired on January 31, 1997. The permittee states that the project would be economically infeasible.
