Intent To Prepare a Rio Puerco Resource Area Resource Management Plan (RMP) Amendment/Environmental Impact Statement (EIS) for El Malpais National Conservation Area (NCA) and Chain of Craters Wilderness Study Unit (WSU); Albuquerque District, NM

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent to prepare a RMP amendment/EIS and invitation to participate in developing a management plan for the El Malpais NCA including recommendation on the wilderness suitability of the Chain of Craters WSU.

SUMMARY: The Bureau of Land Management, Albuquerque District is initiating the preparation of the El Malpais NCA management plan and EIS. This action will amend the Rio Puerco RMP. It will include a recommendation on the wilderness suitability of the Chain of Craters WSU and may consider establishment of Areas of Critical Environmental Concern. Proposed planning criteria and dates of public scoping meetings are also included herein.

DATES: Written comments regarding issues to be addressed in developing the draft El Malpais Plan must be submitted on or before May 19, 1995. In addition

to written comments, two public scoping meetings will be held in April (see below.)

ADDRESSES: Comments should be sent to the El Malpais Planning Team, BLM, Albuquerque District, 435 Montano NE., Albuquerque, NM 87107-4935.

FOR FURTHER INFORMATION CONTACT: Kent Hamilton at 505-761-8746 or Patty McLean at 505-761-8728, at 435 Montano NE., Albuquerque, NM 87107-4935.

PUBLIC MEETINGS: The public is invited to attend two public meetings to identify issues to be considered in the draft El Malpais Plan and Chain of Craters wilderness suitability analysis. The meetings will be held at the following times and locations:

Date/time	Location
April 25, 1995	National Guard Armory.
7 p.m.-10 p.m	2001 East Santa Fe Avenue, Grants, NM.
April 27, 1995	Amberley Suite Hotel.
7 p.m.-10 p.m	7620 Pan American Freeway NE., Albuquerque, NM.

SUPPLEMENTARY INFORMATION: The El Malpais NCA, near Grants, New Mexico was established by Public Law 100-225 on December 31, 1987. The NCA encompasses 262,600 acres. The Chain of Craters WSU, established through the same legislation, totals 18,300 acres and is included within the NCA. Between 1988 and 1991, BLM developed a General Management Plan (GMP) for the El Malpais NCA. BLM considered the GMP an "activity plan" and completed an environmental assessment, rather than a formal RMP amendment and EIS. The GMP was appealed to the Interior Board of Land Appeals (IBLA) by the New Mexico Wilderness Coalition on the grounds that the plan required an EIS and in 1994 IBLA decided in favor of the appellants and directed BLM to prepare an RMP amendment. The proposed El Malpais Plan and EIS will direct the management of the NCA for the next ten to twenty years and will address all requirements of PL 100-225 and the Federal Land Policy and Management Act, including a suitability analysis and recommendation for the Chain of Craters Wilderness Study Area. The planning area will include all lands within or contiguous to the NCA boundary, including lands acquired since the NCA was established.

The El Malpais plan will be developed by an interdisciplinary team representing Archeology, Range, Outdoor Recreation, Interpretation and

Wildlife Biology. Additional technical support will be provided by other Technical Specialists as needed.

Anticipated Planning Issues

Suggested issues to be addressed in the plan include the following: American Indian Issues; Boundary Adjustments; Cultural Resources; Desired Plant Communities; Facility Development; Interpretation and Public Education; Natural Resources; Range Management; Recreation; Transportation (including ORV designation); Wilderness (WSA and designated wilderness areas); and Wildlife Habitat.

Planning Criteria

Proposed planning criteria for development of the El Malpais Plan are listed below. Public comment is invited. Planning criteria may be changed as planning proceeds based on public suggestions and the findings of various studies and assessments.

1. Actions must comply with laws, executive orders, and regulations.

2. In each planned action, resource outputs must be reasonable and achievable.

3. Planned actions will sustain the productivity and diversity of natural systems in the NCA.

4. The plan will be developed using the best available scientific information as the cornerstone for resource allocations and other land management decisions in the NCA. The plan will incorporate the work done for the GMP published in 1991 as well as new information attained since establishment of the NCA.

5. The BLM will use an interdisciplinary approach to land management.

6. The BLM will base planning and management on long-term horizons and goals.

7. To the extent possible, this plan will be consistent with the lands and policies of tribes, other federal agencies, and state and local governments.

8. Consideration will be given to designating special administrative management areas within the planning area, such as Areas of Critical Environmental Concern and Research Natural Areas.

9. Planned actions will contribute to or sustain the health of the land. Monitoring and inventory information will be used to assess the effect of management actions.

Public Participation

Public participation activities during the planning process will include consultation with affected users and

other agencies, meetings with interested groups and individuals, mail outs, media notices, **Federal Register** notices, public meetings, and distribution of the Plan and EIS for comments.

Complete records of the planning process will be available for public review at the Albuquerque District at the address above.

Cancellation of Proposed Withdrawal, Correction of Decision Record; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice terminates a proposal to withdraw 5,417.43 acres of Federal surface and mineral estate, and another 40.00 acres of Federal mineral estate only, in Bighorn County to protect significant paleontological resource values discovered near Greybull, Wyoming. The public lands and mineral estate were temporarily closed for two years from surface entry and mining location to allow various studies and analyses to be made in support of a final decision concerning the proposed withdrawal. The land automatically became open to entry under the general land laws, including the mining laws, on January 15, 1994, when the temporary segregation expired. The lands have been, and remain open to mineral leasing.

This notice also corrects the acreage in the Decision Record for the Brown/Howe Dinosaur Area Environmental Assessment (WY-017-EA3-056), dated January 20, 1995. The correct acreage of public land surface designated an Area of Critical Environmental Concern is 5,417.43 acres, instead of 5,457.43 acres.

EFFECTIVE DATE: March 29, 1995.

FOR FURTHER INFORMATION CONTACT: Tamara Gertsch, BLM Wyoming State Office, P.O. Box 1828, Cheyenne, Wyoming 82003, (307) 775-6115.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Withdrawal was published in the **Federal Register** on January 16, 1992, which segregated for two years the Federal surface and mineral estate described in the notice from entry under the general land laws, including the mining laws, subject to valid existing rights. The Bureau of Land Management

has determined withdrawal of Federal land and Federal mineral estate is not needed to protect the paleontological resources present. The Cody Resource Management Plan contains management prescriptions for the area which afford adequate protection. The following described area was designated on January 20, 1995, as the Brown/Howe Dinosaur Area ACEC.
