Abstract: This sample survey of approximately 1,000 public school principals requests data on current procedures used by schools to collect information on student's race/ethnicity, how schools report this information for federal purposes, and the extent to which the five standard federal categories adequately describe the school's current population. The survey is part of a federal-government-wide review process being conducted by the Office of Management and Budget (OMB). Information from the survey will be used to evaluate and assess proposed changes and revisions to the five standard categories currently used and issued 17 years ago by OMB.

Additional Information: Clearance for this information collection is requested for March 31, 1995. The survey must be started by April 7, 1995 to allow the eight weeks needed to administer it before the public school year closes. The survey must be administered this year to remain within deadlines imposed by the testing program for the Year 2000 Census.
