Cancellation of Proposed Withdrawal, Correction of Decision Record; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice terminates a proposal to withdraw 5,417.43 acres of Federal surface and mineral estate, and another 40.00 acres of Federal mineral estate only, in Bighorn County to protect significant paleontological resource values discovered near Greybull, Wyoming. The public lands and mineral estate were temporarily closed for two years from surface entry and mining location to allow various studies and analyses to be made in support of a final decision concerning the proposed withdrawal. The land automatically became open to entry under the general land laws, including the mining laws, on January 15, 1994, when the temporary segregation expired. The lands have been, and remain open to mineral leasing.

This notice also corrects the acreage in the Decision Record for the Brown/Howe Dinosaur Area Environmental Assessment (WY-017-EA3-056), dated January 20, 1995. The correct acreage of public land surface designated an Area of Critical Environmental Concern is 5,417.43 acres, instead of 5,457.43 acres.

EFFECTIVE DATE: March 29, 1995.

FOR FURTHER INFORMATION CONTACT: Tamara Gertsch, BLM Wyoming State Office, P.O. Box 1828, Cheyenne, Wyoming 82003, (307) 775-6115.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Withdrawal was published in the **Federal Register** on January 16, 1992, which segregated for two years the Federal surface and mineral estate described in the notice from entry under the general land laws, including the mining laws, subject to valid existing rights. The Bureau of Land Management

has determined withdrawal of Federal land and Federal mineral estate is not needed to protect the paleontological resources present. The Cody Resource Management Plan contains management prescriptions for the area which afford adequate protection. The following described area was designated on January 20, 1995, as the Brown/Howe Dinosaur Area ACEC.
