Cancellation of Proposed Withdrawal, Correction of Decision Record; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice terminates a proposal to withdraw 5,417.43 acres of Federal surface and mineral estate, and another 40.00 acres of Federal mineral estate only, in Bighorn County to protect significant paleontological resource values discovered near Greybull, Wyoming. The public lands and mineral estate were temporarily closed for two years from surface entry and mining location to allow various studies and analyses to be made in support of a final decision concerning the proposed withdrawal. The land automatically became open to entry under the general land laws, including the mining laws, on January 15, 1994, when the temporary segregation expired. The lands have been, and remain open to mineral leasing.

This notice also corrects the acreage in the Decision Record for the Brown/Howe Dinosaur Area Environmental Assessment (WY-017-EA3-056), dated January 20, 1995. The correct acreage of public land surface designated an Area of Critical Environmental Concern is 5,417.43 acres, instead of 5,457.43 acres.

EFFECTIVE DATE: March 29, 1995.

FOR FURTHER INFORMATION CONTACT: Tamara Gertsch, BLM Wyoming State Office, P.O. Box 1828, Cheyenne, Wyoming 82003, (307) 775-6115.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Withdrawal was published in the **Federal Register** on January 16, 1992, which segregated for two years the Federal surface and mineral estate described in the notice from entry under the general land laws, including the mining laws, subject to valid existing rights. The Bureau of Land Management

has determined withdrawal of Federal land and Federal mineral estate is not needed to protect the paleontological resources present. The Cody Resource Management Plan contains management prescriptions for the area which afford adequate protection. The following described area was designated on January 20, 1995, as the Brown/Howe Dinosaur Area ACEC.

Sixth Principal Meridian, Bighorn County, Wyoming

T. 54 N., R. 91 W.,
Sec. 4, lots 1-2, S $\frac{1}{2}$ NE $\frac{1}{4}$, SE $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$;

General Management Plan, Environmental Impact Statement, Isle Royale National Park, Michigan

AGENCY: National Park Service, Department of the Interior.

ACTION: Notice of intent to prepare an environmental impact statement for a

general management plan, Isle Royale National Park, Keweenaw County, Michigan.

SUMMARY: The National Park Service, in compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) will prepare an environmental impact statement (EIS) on a general management plan for Isle Royale National Park.

Isle Royale National Park currently operates under a Master Plan written in 1963. Because the master plan is severely outdated, the park does not have a comprehensive plan to set forth the basic management philosophy for the park, direct decision-making, and provide strategies for addressing issues and achieving management objectives. This planning effort will result in a comprehensive general management plan that guides the future use of resources and facilities; identifies future needs for facility types; clarifies research and resource management needs and priorities; encompasses preservation of natural and cultural resources; and addresses changing levels of park visitation over the next 10–15 year period. Carrying capacity issues will be addressed by incorporating the Visitor Experience and Resource Protection (VERP) process into the general management plan effort.

The EIS will describe a range of alternatives for management of Isle Royale National Park, including the no action alternative, and analyze their impacts on natural and cultural resources, recreation use, and any other current uses.

Major issues to be addressed in the EIS will include the following:

1. Island visitation has outgrown park infrastructure and operations. This contributes to crowding that already occurs in some areas due to the commercial boat schedules.

2. Increasing motorized boat use is taxing park operations and infrastructure and is causing friction between motorized and nonmotorized users.

3. Visitor facilities are deteriorating. It is increasingly difficult and expensive to replace these facilities due to laws passed since 1963. It is currently undetermined what facilities are appropriate on the island and if facilities should be enlarged to respond to the increasing visitation or if visitation should be limited and facilities reduced.

Additional issues to be addressed in the EIS may be identified during the scoping process. Federal, State, local agencies, and individuals or organizations are invited to participate

in the scoping process. The scoping process includes:

1. Identification of potential issues.
2. Identification of potential impact topics and topics to be analyzed in depth.
3. Determination of potential cooperating agencies and assignment of responsibilities.

Public scoping will begin in summer of 1995 and continue through the fall. Prior public notice of scoping processes will be issued. The public is encouraged to send written comments and suggestions concerning preparation of the EIS to Mr. Doug Barnard, Superintendent, Isle Royale National Park, 800 East Lakeshore Drive, Houghton, Michigan 49931–1895. The National Park Service will accept comments at this address at any time during the EIS process. However, to facilitate timely identification of issues and impact topics to be addressed in the EIS, the National Park Service recommends that initial comments be submitted by October 31, 1995.

The responsible official is William W. Schenk, Regional Director, Midwest Region, National Park Service, Omaha, Nebraska.

FOR FURTHER INFORMATION CONTACT: Superintendent, Isle Royale National Park, 800 East Lakeshore Drive, Houghton, Michigan 49931–1895, phone 906–337–4991 (summer) or 906–482–0986 (winter).

Dated: March 20, 1995.

William W. Schenk,

Regional Director, Midwest Region.

Aniakchak National Monument Subsistence Resource Commission; Meeting

AGENCY: National Park Service, Interior.
ACTION: Subsistence Resource Commission meeting.

SUMMARY: The Superintendent of Aniakchak National Monument and the Chairperson of the Subsistence Resource Commission for Aniakchak National Monument announce a forthcoming meeting of the Aniakchak National Monument Subsistence Resource Commission.

The following agenda items will be discussed:

- (1) Introduction of commission members and guests.
- (2) Superintendent's welcome:
 - a. Review of SRC function and purpose.
 - b. Aniakchak National Monument

subsistence management report.

- (3) Old business:
 - a. Review and approve minutes from last meeting.
 - b. Status of hunting plan recommendations.
 - c. Election of chairperson.
- (4) New business:
 - a. Federal Subsistence Program Update.
 - b. Resident zone community boundaries.
 - c. Aniakchak National Monument Resource Management Plan.
 - d. Public and other agency comments.
- (5) Subsistence hunting program recommendations work session:
 - a. Finalize recommendations.
 - b. Draft new recommendations.
- (6) Adjournment.

DATES: The meeting will begin at 9:00 a.m. on Thursday, April 6, and conclude at 12:00 noon on Friday, April 7, 1995.

LOCATION: The meeting will be held at the National Park Service Office in King Salmon, Alaska.

FOR FURTHER INFORMATION CONTACT: Bill Pierce, Superintendent, Aniakchak National Monument, P.O. Box 7, King Salmon, Alaska 99613.

SUPPLEMENTARY INFORMATION: The Subsistence Resource Commissions are authorized under Title VIII, Section 808, of the Alaska National Interest Lands Conservation Act, Pub. L. 96–487, and operate in accordance with the provisions of the Federal Advisory Committees Act.

David B. Ames,

Acting Regional Director.
