BILLING CODE 4163-70-P

Administration for Children and Families

Office of Community Services; State Median Income Estimates for Four-Person Families (FY 1996); Notice of the Fiscal Year (FY) 1996 State Median Income Estimates for Use Under the Low Income Home Energy Assistance Program (LIHEAP) Administered by the Administration for Children and Families, Office of Community Services, Division of Energy Assistance

AGENCY: Administration for Children and Families (ACF), DHHS.

ACTION: Notice of estimated state median income for FY 1996.

SUMMARY: This notice announces the estimated median income for four-person families in each state and the District of Columbia for FY 1996 (October 1, 1995 to September 30, 1996). In the past, the date for adoption of the state median income estimates has been the first day of the fiscal year after their publication. The adoption date for the state median income estimates now has been changed to be consistent with the adoption date for the poverty income guidelines. Therefore, LIHEAP grantees may adopt the state median income estimates at any time between the date of this publication and the first day of FY 1996 at the LIHEAP grantee's option. This means that LIHEAP grantees could also choose to implement this notice during the period between the heating and cooling seasons. However, by

October 1, 1995, or by the beginning of a grantee's fiscal year, whichever is later, LIHEAP grantees using state median income estimates must adjust their income eligibility criteria to be in accord with the FY 1996 state median income estimates.

This listing of estimated state median incomes concerns maximum income levels for households to which LIHEAP grantees may make payments under LIHEAP or by the beginning of a LIHEAP grantee's fiscal year, whichever is later.

EFFECTIVE DATE: The estimates are effective at any time between the date of this publication and October 1, 1995, or by the beginning of a LIHEAP grantee's fiscal year, whichever is later.

SUPPLEMENTARY INFORMATION: Under the provisions of section 2603(7) of Title XXVI of the Omnibus Budget Reconciliation Act of 1981 (Pub. L. 97-35, as amended), we are announcing the estimated median income of a four-person family for each state, the District of Columbia, and the United States for FY 1996 (the period of October 1, 1995, through September 30, 1996).

Section 2605(b)(2)(B)(ii) of the LIHEAP statute provides that 60 percent of the median income for each state, as annually established by the Secretary of Health and Human Services, is one of the income criteria that LIHEAP grantees can use in determining a household's eligibility for LIHEAP.

LIHEAP is currently authorized through the end of FY 1999 by the Human Services Amendments of 1994, Public Law 103-252, which was enacted on May 18, 1994.

Estimates of the median income of four-person families for each state and the District of Columbia for FY 1996 have been developed by the Bureau of the Census of the U.S. Department of Commerce, using the most recent available income data. In developing the median income estimates for FY 1996, the Bureau of the Census used the following three sources of data: (1) The March 1994 Current Population Survey; (2) the 1990 Decennial Census of Population; and (3) 1993 per capita personal income estimates, by state, from the Bureau of Economic Analysis of the U.S. Department of Commerce.

This is the first year in which income estimates from the March Current Population Survey are based on population controls from the 1990 Decennial Census of Population. Previous income estimates from the March Current Population Survey had been based on population controls from the 1980 Decennial Census of Population. Generally, the use of 1990 population controls results in somewhat lower estimates of income. This has resulted in several states having lower state median income estimates for FY 1996 than for FY 1995.

For further information on the estimating method and data sources, contact Edward Welniak, Chief of the Income Statistics Branch, Housing and Household Economic Statistics Division, at the Bureau of the Census (301-763-8576).

A state-by-state listing of median income, and 60 percent of median income, for a four-person family for FY 1996 follows. The listing describes the method for adjusting median income for families of different sizes as specified in 45 CFR 96.85(b), which was published in the **Federal Register** on March 3, 1988 at 53 FR 6824.

Dated: March 1, 1995.

Note—FY 1996 covers the period of October 1, 1995 through September 30, 1996. The estimated median income for 4-person families living in the United States is \$45,161 for FY 1996. The estimates are effective for the Low Income Home Energy Assistance Program (LIHEAP) at any time between the date of this publication and October 1, 1995, or by the beginning of a LIHEAP grantee's fiscal year, whichever is later.

¹ In accordance with 45 CFR 96.85, each state's estimated median income for a 4-person family is multiplied by the following percentages to adjust for family size: 52% for one person, 68% for two persons, 84% for three persons, 100% for four persons, 116% for five persons, and 132% for six persons. For family sizes greater than six persons, add 3% to 132% for each additional family member and multiply the new percentage by the state's estimated median income for a 4-person family.

² Prepared by the Bureau of the Census from the March 1994 Current Population Survey, 1990 Decennial Census of Population and Housing, and 1993 per capita personal income estimates, by state, from the Bureau of Economic Analysis.
