

Commerce will conclude that an order is no longer of interest to interested parties and will revoke the order if no domestic interested party objects to revocation and no interested party requests an administrative review by the last day of the fifth anniversary month.

Within the specified time frame, we received an objection from a domestic interested party to our intent to revoke these countervailing duty orders. Therefore, because the requirements of 19 CFR 355.25(d)(4)(iii) have not been met, we will not revoke these orders.

This determination is in accordance with 19 CFR 355.25(d)(4).

##### Prospective Grant of Exclusive Patent License

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice of prospective grant of exclusive patent license.

**SUMMARY:** This is notice in accordance with 35 USC 209(c)(1) and 37 CFR 404.7(a)(1)(i) that the National Institute of Standards and Technology ("NIST"), U.S. Department of Commerce, is contemplating the grant of an exclusive license in all microgravity and space related research including, but not limited to the Space Shuttle, the MIR Space Station, the US Space Station, orbital re-entry vehicles, sounding rockets and low "g" research aircraft, to practice the invention embodied in U.S. Patent Number 5,104,478, titled, "Method For Making Single Crystals" to Instrumentation Technology Associates, Inc., having a place of business in Exton, Pennsylvania. The patent rights

in this invention have been assigned to the United States of America.

**FOR FURTHER INFORMATION CONTACT:** Bruce E. Mattson, National Institute of Standards and Technology, Technology Development and Small Business Program, Building 221, Room B-256, Gaithersburg, MD 20852.

**SUPPLEMENTARY INFORMATION:** The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless, within sixty days from the date of this published Notice, NIST receives written evidence and argument which establish that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

U.S. Patent Number 5,104,478 is a method for making single crystals, comprising osmotically removing the solvent from a solution containing the material to be grown into a crystal.

The availability of the invention for licensing was published in the **Federal Register**, Vol. 57, No. 158 (August 14, 1992). A copy of the patent application may be obtained from NIST at the foregoing address.

Dated: March 22, 1995.
