SUPPLEMENTARY INFORMATION:

Background

The Department published preliminary results on December 19, 1994. The Department has now completed the administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Scope of the Review

Imports covered by the review are shipments of racing plates (horseshoes) that are made of aluminum, may have cleats or caulks, and come in a variety of sizes. They are used on race horses, polo, jumping, hunting, and other performing horses, as differentiated from pleasure and work horses. During the review period such merchandise was classifiable under Harmonized Tariff Schedule (HTS) item number 7616.90.00. The HTS item number is provided for convenience and customs purposes. The written description remains dispositive.

Final Results of Review

The Department received no comments on its preliminary results. Therefore, the margin from the preliminary results is the final margin for the period February 1, 1993, through January 31, 1994:

Manufacturer/exporter	Margin (percent)
Equine Forgings Limited014

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of these final results of administrative review, as provided for by section 751(a)(1) of the Tariff Act: (1) The cash deposit rate for the reviewed firm will be that firm's rate established in the final results of this administrative review. Since the rate for Equine Forgings Limited is *de minimis*, there will be a cash deposit of zero on shipments from this firm; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the

most recent period; (3) if the exporter is not a firm covered in this review, or the original less-than-fair value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the merchandise; and (4) the "all others" rate will remain at 6.77 percent, the "all others" rate established in the LTFV investigation.

These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This administrative review and notice are in accordance with section 751(a)(1) of the Tariff Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: March 22, 1995.

Susan G. Esserman,

Assistant Secretary for Import Administration.
