SUPPLEMENTARY INFORMATION:

Analysis of State Submissions

A. Procedural Background

The Clean Air Act (CAA) requires states to observe certain procedural requirements in developing implementation plans for submission to the EPA. Section 110(a)(2) of the CAA provides that each implementation plan submitted by a state must be adopted after reasonable notice and public hearing. Section 110(l) of the CAA similarly provides that each revision to an implementation plan submitted by a state under the CAA must be adopted by such state after reasonable notice and public hearing. The EPA also must determine whether a submittal is complete and therefore warrants further EPA review and action (see section 110(k)(1) of the CAA and 57 FR 13565). The EPA's completeness criteria for SIP submittals are set out at 40 Code of Federal Regulations (CFR) part 51, appendix V. The EPA attempts to make completeness determinations within 60 days of receiving a submission. However, a submittal is deemed complete by operation of law if a completeness determination is not made by the EPA six months after receipt of the submission.

The State of Texas held public hearings on February 1-2, 1989, May 17, 1990, May 21-22, 1992, and on March 17, 1993, to entertain public comment
