BILLING CODE 6450-01-P

Bonneville Power Administration

Notice of Intent to Prepare an Environmental Impact Statement, Notice of Floodplain and Wetlands Involvement and Notice of Scoping Meetings for the Hood River Fisheries Restoration Project

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of intent to prepare an environmental impact statement (EIS), and conduct scoping meetings and notice of floodplain and wetlands involvement.

SUMMARY: Today's notice announces BPA's intention to prepare an EIS on actions to protect and improve anadromous salmonid populations in the Hood River Basin. These actions are proposed to mitigate the losses of fish and wildlife associated with the

construction and operation of Federal hydro-power facilities in the Columbia River Basin. These actions are expected to protect and improve the status of native stocks of salmonids in the Hood River and Columbia River Basin, establish a viable spring chinook population in the Hood River Basin, and protect, to the extent practicable, other aquatic and terrestrial resources in the Hood River Basin, consistent with tribal treaty rights, Federal environmental legislation, and the fish and wildlife management objectives of the confederated Tribes of the Warm Springs Indian Reservation (Tribes), and the State of Oregon. In addition to protecting and improving salmonid populations, these actions would also provide a sustainable Indian and non-Indian harvest of salmon and steelhead. The Tribes and the State of Oregon, Department of Fish and Wildlife, will be cooperating agencies and will participate in the development of the EIS. This action may involve floodplain and wetlands located in Hood River County, Oregon.

In accordance with DOE regulations for compliance with floodplain and wetlands environmental review requirements (10 CFR Part 1022), BPA will prepare a floodplain and wetlands assessment and will perform this proposed action in a manner so as to avoid or minimize potential harm to or within the affected floodplain and wetlands. The assessment and a floodplain statement of findings will be included in the EIS being prepared for the proposed project in accordance with NEPA.

DATES: BPA has established a 45-day scoping period during which affected landowners, concerned citizens, special interest groups, local governments, and any other interested parties are invited to comment on the scope of the proposed EIS. Scoping will help BPA ensure that a full range of issues related to this proposal is addressed in the EIS, and also will identify significant or potentially significant impacts that may result from the proposed project. Written comments are due to the address below no later than May 21, 1995.

Comments may also be made at an open house technical scoping meeting for Federal, State and interested parties on April 11, 1995, at the Bonneville Power Administration, 905 NE 11th, Room 106, Portland, Oregon, from 1:00 PM to 3:00 PM; an open house public scoping meeting on April 12, 1995, at the Yaucoma Buildings, 902 Wasco, Hood River, Oregon, from 6:30 pm to 8:30 pm; and an open house scoping
