SUPPLEMENTARY INFORMATION: On March 4, 1995, President Clinton issued a memorandum to heads of departments and agencies calling for a review of all agency regulations and elimination or revision of those that are outdated or in need of reform. The President also directed that front line regulators " * * * get out of Washington and create grassroots partnerships" with people affected by agency regulations. RSPA is reviewing the Hazardous Materials Regulations (HMR; 49 CFR Parts 171-180), and associated procedural rules (49 CFR Parts 106 and 107), in response to the President's directive.

On September 11, 1993, the President signed an Executive Order on setting customer service standards. The Executive Order requires continual reform of the executive branch's management practices and operations to provide service to the public that matches or exceeds the best service available in the private sector. RSPA is seeking information from customers of its hazardous materials safety program to determine the kind and quality of

services they want and their level of satisfaction with existing services.

Conduct of Meetings

Meetings will be informal, intended to produce a dialogue between agency personnel and those persons directly affected by the hazardous materials safety programs, regulations and customer services.
