##### U.S. Strategic Command Strategic Advisory Group

**AGENCY:** Department of Defense, USSTRATCOM.

**ACTION:** Notice.

**SUMMARY:** The Strategic Advisory Group (SAG) will meet in closed session on April 20 and 21, 1995.

The mission of the SAG is to provide timely advice on scientific, technical, and policy-related issues to the Commander in Chief, U.S. Strategic Command, during the development of the nation's strategic warplans. At this meeting, the SAG will discuss strategic issues that relate to the development of the Single Integrated Operational Plan (SIOP). Full development of the topics will require discussion of information classified TOP SECRET in accordance with Executive Order 12356, April 2, 1982. Access to this information must be strictly limited to personnel having requisite security clearances and specific need-to-know. Unauthorized disclosure of the information to be discussed at the SAG meeting could have exceptionally grave impact upon national defense.

In accordance with section 10(d) of the Federal Advisory Committee Act, Public law 92-463, as amended (5 U.S.C. App. II (1988)), it has been determined that this SAG meeting concerns matters listed in 5 U.S.C.

552b(c)(1) (1988), and that, accordingly, this meeting will be closed to the public.

Dated: March 29, 1995.

##### SUPPLEMENTARY INFORMATION:

##### Office of Research and Development

**Title:** Information Collection Request (ICR) for Report and Database on Ecosystem Research in the Pacific Northwest.

**Abstract:** This is a new information collection request to establish a database of ecosystem research activities in the Pacific Northwest. The establishment of the database is one of the tasks assigned under President Clinton's Forest Plan and associated Record of Decision (ROD) from U.S. District Court in Seattle. Specifically, the task requires the EPA to identify possible sources of research activities (State, federal, and university research programs) and compile this information into an EPA electronic database. The information is needed to: (1) Ensure that EPA and non-EPA research conducted in the Pacific Northwest is complementary, (2) help federal research organizations identify research needs or redundant projects, (3) serve as a basis for development of an interagency ecosystem research plan that is responsive to the requirements in the President's Forest Plan.

The information will be gathered through a voluntary mail survey that targets researchers working at various governmental and non-governmental institutions located within the Pacific Northwest. Respondents will be asked to provide information that includes: (1) Identification information (title, contact, and principal investigators), (2) project status (activities, funding), (3) descriptive information about the research (spatial scale, location, ecosystem, etc.), and (4) survey goals and objectives. Respondents shall also be asked to provide their opinion on the top five ecosystem research needs to support the President's Forest Plan. Following the distribution of the survey, the EPA will perform follow-up calls to track survey completion and answer
