

days for minor agricultural uses) for public comment. Thereafter, the Administrator may approve such a request. EPA may waive the comment period if requested to do so by the registrant, or if continued use would pose an unreasonable adverse effect on the environment.

II. Intent to Delete Uses

This notice announces receipt by the Agency of an application by DuPont Agricultural Products, Walker's Mill, Barley Mill Plaza, P.O. Box 80038, Wilmington, DE 19880-0038, to delete

certain outdoor and all indoor non-food uses for the two methomyl registrations listed below in Table 1. These registrations are identified by registration number, product names, active ingredient, and the specific uses deleted. Users of these products who desire the continuation of the subject uses may wish to contact the registrant within 30 days after the publication of this notice, to discuss withdrawal of the applications for deletions or possible transfer of the registrations.

The registrant is requesting, and EPA is providing a 30-day comment period

because the Agency, has been informed by the registrant that it contacted all registrants of methomyl fly baits last year of its decision not to support that use, and has not been selling the product to fly bait formulators since December 31, 1993. Also, because the deletions are being requested in accord with an EPA request that the registrant propose risk mitigation measures to address the Agency's methomyl worker safety concerns, the Agency considers a 30-day comment period to be appropriate in length.

TABLE 1. — REGISTRATIONS SUBJECT TO DELETION REQUESTS

EPA Registration No.	Product Name	Active Ingredient(s)	Delete From Label
352-366	DuPont Methomyl Technical	Methomyl	All indoor non-food uses such as dog kennels, fur-bearing animal units, farm buildings, poultry houses, commercial, industrial and institutional areas (outdoor), eating establishments (outdoor), food processing, handling and storage plants/areas (outdoor), garbage areas, garbage cans, trash bins, meat processing plants (nonfood areas), poultry processing plants (nonfood areas).
352-361	DuPont Composition	Methomyl	All indoor non-food uses such as dog kennels, fur-bearing animal units, farm buildings, poultry houses, commercial, industrial and institutional areas (outdoor), eating establishments (outdoor), food processing, handling and storage plants/areas (outdoor), garbage areas, garbage cans, trash bins, meat processing plants (nonfood areas), poultry processing plants (nonfood areas).

III. Existing Stocks Provisions

The Agency intends to authorize registrants to sell or distribute existing stocks of product under the previously approved labeling for a period of 18 months after approval of the deletion requests, subject to the imposition of other restrictions resulting from, e.g. special review actions.

Miles, Inc.; Notice of Filing of Pesticide Petitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received from Miles, Inc., petitions to establish pesticide tolerances for phostebupirim and cyfluthrin in or on various corn commodities.

ADDRESSES: By mail, submit written comments to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Information submitted and any comment(s) concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment(s) that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. Information on the proposed test and any written comments will be available for public inspection in Rm. 1132 at the

Virginia address given above, from 8 a.m. to 4 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Robert Forrest, Product Manager (PM 14), Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 219, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA, (703)-305-6600; e-mail: Forrest.Robert@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: This notice announces that EPA has received from Miles, Inc., P.O. Box 4913, Kansas City, MO 64120, notices of filing under section 408 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a) for the the following pesticide petitions to amend 40 CFR part 180 to establish tolerances for certain pesticide in or on various corn commodities.

1. *PP 1F4025.* Miles, Inc., has proposed amending 40 CFR part 180 to establish tolerances for phostebupirim, *O*-[2-(1,1-dimethylethyl-5-pyrimidinyl)] *O*-ethyl *O*-(1-methylethyl) phosphorothioate, in or on the following raw agricultural commodities: corn, fresh at 0.01 part per million (ppm);

corn, grain, field and pop at 0.01 ppm; and corn forage and fodder, field, pop, and sweet at 0.01 ppm. The proposed analytical method for determining residues is gas-liquid chromatography.

2. *PP 1F4026*. Miles, Inc., has proposed amending 40 CFR 180.436 to establish tolerances for cyfluthrin, cyano (4-fluoro-2-phenoxyphenyl)methyl-3-(2,2-dichloroethyl)-2,2-dimethylcyclopropanecarboxylate, in or on the following raw agricultural commodities: corn, fresh at 0.01 part per million (ppm); corn, grain, field and pop at 0.01 ppm; and corn forage and fodder, field, pop, and sweet at 0.01 ppm. The proposed analytical method for determining residues is gas-liquid chromatography.

Rohm and Haas Co.; Approval of Pesticide Product Registrations

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces Agency approval of applications submitted by Rohm and Haas Company, to conditionally register the pesticide products Enable 2F, RH-7592 Technical, and Indar WSP containing a new active ingredient not included in any previously registered products pursuant to the provisions of section 3(c)(7)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

FOR FURTHER INFORMATION CONTACT: By mail: Cynthia Giles-Parker, Product Manager (PM) 22, Registration Division (7505C), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 229, CM #2, Environmental Protection Agency, 1921 Jefferson Davis Hwy, Arlington, VA 22202, (703-305-5540).

SUPPLEMENTARY INFORMATION: EPA issued a notice, published in the **Federal Register** of February 5, 1992 (57 FR 4450), which announced that Rohm

and Haas Co., 100 Independence Mall West, Philadelphia, PA 19106, had submitted applications to conditionally register the pesticide products Indar 2F (now known as Enable 2F) and RH-7592 Technical (EPA File Symbols 707-EGR and 707-EGN), containing the active ingredient fenbuconazole alpha-[2-(4-chlorophenyl)ethyl]-alpha-phenyl-1H-1,2,4-triazole-1-propanenitrile at 22.8 and 98.3 percent respectively, an active ingredient not included in any previously registered products.

EPA later received an application from the company to register the product Indar 75WSP (EPA File Symbol 707-EGO), containing the active ingredient fenbuconazole at 75 percent. However, since the notice of receipt of application was not published in **Federal Register**, as required by FIFRA, as amended, interested parties may submit written comments within 30 days from the date of publication of this notice for this product only.

The applications were approved on February 15, 1995, for one technical and two end-use products listed below:

1. RH-7592 Technical for formulation and manufacture of fungicides only (EPA Registration Number 707-230).

2. Enable 2F for disease control on pecans (EPA Registration Number 707-231).

3. Indar 75WSP for use to control diseases on apricots, cherries, nectarines, and peaches (EPA Registration Number 707-239).

A conditional registration may be granted under section 3(c)(7)(C) of FIFRA for a new active ingredient where certain data are lacking, on condition that such data are received by the end of the conditional registration period and do not meet or exceed the risk criteria set forth in 40 CFR 154.7; that use of the pesticide during the conditional registration period will not cause unreasonable adverse effects; and that use of the pesticide is in the public interest.

The Agency has considered the available data on the risks associated with the proposed use of fenbuconazole, and information on social, economic, and environmental benefits to be derived from such use. Specifically, the Agency has considered the nature and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of fenbuconazole during the period of conditional registration will not cause any unreasonable adverse effect on the environment, and that use of the pesticide is, in the public interest.

These products are conditionally registered in accordance with FIFRA section 3(c)(7)(C). If the conditions are not complied with the registrations will be subject to cancellation in accordance with FIFRA section 6(e). The terms of the conditional registrations will require Rohm and Haas Company to submit the following studies:

1. Fish Life Cycle (Guideline Reference Number 72-5).

2. Growth and Reproduction of Aquatic Plants - Tier 2 (123-2).

3. Droplet Size Spectrum (201-1).

4. Drift Field Evaluation (202-1).

5. Storage Stability of Fenbuconazole Reflecting a 49-month Storage Period (171-4(e)).

Consistent with section 3(c)(7)(C), the Agency has determined that these conditional registrations are in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not result in unreasonable adverse effects to man and the environment.

More detailed information on these conditional registrations is contained in an EPA Pesticide Fact Sheet on fenbuconazole.

A copy of this fact sheet, which provides a summary description of the chemical, use patterns and formulations, science findings, and the Agency's regulatory position and rationale, may be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, VA 22161.

In accordance with section 3(c)(2) of FIFRA, a copy of the approved label and the list of data references used to support registration are available for public inspection in the office of the Product Manager. The data and other scientific information used to support registration, except for material specifically protected by section 10 of FIFRA, are available for public inspection in the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Rm. 1132, CM #2, Arlington, VA 22202 (703-305-5805). Requests for data must be made in accordance with the provisions of the Freedom of Information Act and must be addressed to the Freedom of Information Office (A-101), 401 M St., SW., Washington, D.C. 20460. Such requests should: (1) Identify the product name and registration number and (2) specify the data or information desired.

Authority: 7 U.S.C. 136.
