Approval and Promulgation of Implementation Plans; Illinois

AGENCY: Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: The United States Environmental Protection Agency (USEPA) proposes to approve Illinois' February 7, 1994, request to incorporate smaller source permit rule amendments into the Illinois State Implementation Plan (SIP). The purpose of these smaller source amendments is to lessen the permitting burden on small sources and on the permitting authority by reducing the frequency and/or the requirement for operating permit renewal for sources emitting less than twenty-five tons per year of regulated air pollutants. In the final rules section of this **Federal Register**, the USEPA is approving this action as a direct final rule without prior proposal because USEPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If USEPA receives adverse comments, the direct

final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on the proposed rule. USEPA will not institute a second comment period on this action. Any parties interested in commenting on this notice should do so at this time.

DATES: Comments on this proposed rule must be received on or before May 5, 1995.

ADDRESSES: Written comments should be mailed to: J. Elmer Bortzer, Chief, Regulation Development Section, Regulation Development Branch (AR18-J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604.
