DEPARTMENT OF ENERGY

Reimbursement for Costs of Remedial Action at Active Uranium and Thorium Processing Sites

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of the acceptance of claims and the availability of funds for reimbursements in fiscal year 1995.

SUMMARY: This Notice announces the Department of Energy's acceptance of claims for reimbursement and the availability of approximately \$41.7 million in funds for fiscal year 1995 for reimbursements of certain costs of remedial action at eligible active uranium and thorium processing sites pursuant to Title X of the Energy Policy Act of 1992. The Department of Energy anticipates that claims submitted by licensees in fiscal year 1995 together with outstanding approved claims from fiscal year 1994 will exceed \$41.7 million and would therefore be subject to prorated payment. In addition, the Department of Energy is announcing an adjustment for inflation to the statutory per dry short ton limit on reimbursement to uranium licensees and the aggregate limit on reimbursement to uranium and thorium licensees. Lastly, the Department of Energy is announcing changes in the quantity of Federal-related or total dry short tons of byproduct material and Federal reimbursement ratio for the Western Nuclear Incorporated, Split Rock mill site, in Jeffrey City, Wyoming, and the American Nuclear Corporation, Gas Hills mill site, in Gas Hills, Wyoming, and the preliminary per dry short ton limit on reimbursement to uranium licensees.

DATES: The closing date for the submission of claims for reimbursement in fiscal year 1995 is June 16, 1995.

ADDRESSES: Claims may be mailed to the Environmental Restoration Division, U.S. Department of Energy, 2155 Louisiana NE., Suite 10000, Albuquerque, NM 87110. All claims should be addressed to the attention of James B. Coffey and sent by registered or certified mail, return receipt requested.

FOR FURTHER INFORMATION CONTACT:

James Coffey, Environmental Restoration Division, U.S. Department of Energy, (505) 845-4628.

SUPPLEMENTARY INFORMATION: The Department of Energy published a final rule under 10 CFR part 765 in the **Federal Register** on May 23, 1994 (59 FR 26714) to implement the requirements of Title X of the Energy Policy Act of 1992 (sections 1001-1004 of Pub. L. 102-486, 42 U.S.C. 2296a *et seq.*) and to establish the procedures for eligible licensees to submit claims for reimbursement. Title X requires the Department of Energy to reimburse eligible uranium and thorium licensees for certain costs of decontamination,

decommissioning, reclamation, and other remedial action incurred by licensees at active uranium and thorium processing sites to remediate byproduct material generated as an incident of sales to the United States Government. To be reimbursable, costs of remedial action must be for work which is necessary to comply with applicable requirements of the Uranium Mill Tailings Radiation Control Act of 1978 (42 U.S.C. 7901 *et seq.*) or, where appropriate, with requirements established by a state pursuant to a discontinuance agreement under section 274 of the Atomic Energy Act of 1954 (42 U.S.C. 2021). Claims for reimbursement of costs of remedial action must be supported by reasonable documentation as determined by the Department of Energy in accordance with 10 CFR part 765. Section 1001(b)(2) of the Energy Policy Act of 1992 limits the amount of reimbursement paid to any one licensee of an active uranium site to an amount not to exceed \$5.50, as adjusted annually for inflation, multiplied by the dry short tons of byproduct material located at the site on October 24, 1992, and generated as an incident of sales to the United States. Total reimbursement, in the aggregate, for work performed at the active uranium processing sites shall not exceed \$270 million, as adjusted annually for inflation. Total reimbursement for work performed at the active thorium processing site shall not exceed \$40 million, as adjusted annually for inflation, and is limited to costs incurred for offsite disposal. Funds for reimbursement will be provided from the Uranium Enrichment Decontamination and Decommissioning Fund established at the United States Department of Treasury pursuant to section 1801 of the Atomic Energy Act of 1954 (42 U.S.C. 2297g). Payment or obligation of funds shall be subject to the requirements of the Anti-Deficiency Act (31 U.S.C. 1341).

To make the inflation adjustments indicated above, the Department of Energy is required by 10 CFR 765.12 to apply the Consumer Price Index-Urban (CPI-U) annually, beginning in 1994, using the CPI-U as published by the Bureau of Labor Statistics within the Department of Commerce for the preceding calendar year. The CPI-U for 1993 was 1.030. Therefore, the adjusted values of the \$5.50 per dry short ton, \$270 million, and \$40 million statutory ceilings in 1994 were \$5.67 per dry short ton, \$278.1 million, and \$41.2 million, respectively (i.e., \$5.50, \$270 million, and \$40 million multiplied by 1.030 equals \$5.67, \$278.1 million, and
