General Electric Capital Corporation, G.E. Electronic Rental and Repair, Erie, Pennsylvania; Notice of Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on March 20, 1995 in response to a worker petition which was filed on behalf of workers and former workers at G.E. Electronic Rental and Repair, a subdivision of General Electric Capital Corporation, Erie, Pennsylvania (TA–W–30,820).

The Department of Labor has verified that the three petitioners were not employed by the above subject firm or its subdivision, and that each worker represented a separate firm. Consequently, this is not a valid petition and the Department of Labor cannot make a determination as to whether the workers are eligible for adjustment assistance benefits under the Trade Act of 1974.

Therefore, further investigation in this matter would serve no purpose, and the investigation has been terminated.

Signed at Washington, DC this 27th day of March 1995.

Victor J. Trunzo,

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.

IBM Corporation, Poughkeepsie, New York; Notice of Revised Determination on Reconsideration

On October 3, 1994, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the former workers of the subject firm. The notice was published in the **Federal Register** on October 14, 1994 (59 FR 52193).

The Department expanded its investigation to include the entire Large Scale Computing Division (LSCD) at Poughkeepsie, New York where mainframe computers are produced.

Investigation findings show that sales of computer hardware declined in FY 1993 compared to FY 1992 and in the year to date 3rd quarter of 1994 compared to the same period in 1993. The findings on reconsideration show substantial worker separations in 1993 and in 1994.

Other findings on reconsideration show that IBM lost market share of mainframe processors and processor subassemblies and components in 1994.

U.S. imports of automatic data processing equipment and parts increased in the latest 12 month period ending in February 1994 compared to the same period in 1993.

Other IBM certifications are for workers at Rochester, Minnesota (TA–W–29,026) computer storage equipment; (TA–W–30,176) computers; at Endicott, New York (TA–W–30,258) mainframe computer hardware and software and (TA–W–30,397) printed circuit boards and at Hopewell Junction, New York (TA–W–29,752) computer chips.

Conclusion

After careful consideration of the new facts obtained on reconsideration, it is concluded that workers at IBM Poughkeepsie, New York were adversely affected by increased imports of articles that are like or directly competitive with the LSCD mainframes produced at Poughkeepsie, New York. In accordance with the provisions of the Act, I make the following revised determination for workers of IBM Corporation, Poughkeepsie, New York.

All workers of IBM Corporation in Poughkeepsie, New York who became totally or partially separated from employment on or after March 31, 1993 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C., this 23rd day of March, 1995.

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
