BILLING CODE 6450-01-P

Office of Environmental Management; Proposed Site Treatment Plans

AGENCY: U.S. Department of Energy.

ACTION: Notice of availability.

SUMMARY: Today's notice announces the availability of the Department of Energy's (DOE) Proposed Site Treatment Plans (Proposed Plans) for treating its mixed radioactive and hazardous waste

(mixed waste). As required by the Federal Facility Compliance Act of 1992 (FFCA or the Act), DOE prepared Proposed Plans for 40 sites in 20 States where DOE stores or generates mixed waste. The Proposed Plans identify the proposed treatment option and related schedule for development of the option for each type of mixed waste. Each DOE site is submitting its Proposed Plan to either its State regulators, or as appropriate, the U.S. Environmental Protection Agency (U.S. EPA). DOE faces increasingly tight funding in the near-term, and anticipates that funding will continue to be constrained in the future. The schedules in the Proposed Plans reflect those constraints. DOE expects, that for some sites, further discussion with the State or Federal regulators concerning priorities will result in modified schedules in the approved Plans. The Proposed Plans are available at each site for review by the public. Public comments on the Proposed Plans will be considered by the appropriate regulatory agency in reviewing the plan. Additional opportunities for public involvement in the FFCA process will be offered at many sites by the DOE and State or Federal regulators.

DATES: Written comments on the Proposed Plans should be sent to the recipients identified in Table 1 by July 6, 1995. Written comments received on or before July 6, 1995, will be considered by the State/Federal regulators in reviewing the Proposed Plans.

ADDRESSES: Table 1 lists the recipient to which written comments should be sent on each of the Proposed Plans. Section V of Supplementary Information lists the Reading Rooms where the Proposed Plans may be reviewed.

FOR FURTHER INFORMATION CONTACT: To obtain general information on a site's Proposed Plan or for the address of a Reading Room where Proposed Plans may be viewed, contact the Center for Environmental Management Information at 1-800-7EM-DATA (1-800-736-3282).

SUPPLEMENTARY INFORMATION:

I. Background

Section 3021(b) of the Resource Conservation and Recovery Act (RCRA), as amended by the Federal Facility Compliance Act of 1992 (FFCA or the Act), requires the DOE to prepare Site Treatment Plans for developing treatment capacities and technologies for mixed waste at each site where the DOE stores or generates mixed waste. Mixed waste is defined by the FFCA as waste containing both hazardous
