

Assessment (DEA) for the project. Copies of the DEA are available for review in the Public Reference Branch, Room 3104, of the Commission's offices at 941 North Capitol Street, NE., Washington, DC 20426.

Southern California Edison Company; Renote of Availability of Draft Environmental Assessment

March 31, 1995.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the application for new license for an existing licensed hydropower project on the Kern River owned and operated by the Southern California Edison Company: the Kern River No. 3 Project No. 2290, located in Kern and Tulare Counties, California. Subsequently, the Commission's staff prepared a Draft Environmental Assessment (DEA) that discusses the relicensing of the project.

In the DEA, staff evaluates the potential environmental impacts that would result from the continued operation of the project. Staff concludes that relicensing the project with appropriate enhancement measures would not constitute a major federal action significantly affecting the quality of the human environment.

Copies of the DEA are available for review in the Public Reference Branch, Room 3104, of the Commission's offices

at 941 North Capitol Street, NE., Washington, DC 20426.

[Docket No. TM95-7-23-001]

Eastern Shore Natural Gas Company; Notice of Filing of Corrected Tariff Sheets

March 31, 1995.

Take notice that Eastern Shore Natural Gas Company (ESNG) tendered for filing on March 28, 1995 certain substitute revised tariff sheets included in Appendix A attached to the filing. Such sheets are proposed to be effective April 1, 1995.

On March 14, 1995, ESNG filed revised tariff sheets in Docket No. TM95-7-23-000 to track changes in Transco's fuel retention percentages and ESNG's pipeline suppliers' storage service rates, both to be effective April 1, 1995.

ESNG has since discovered on its Schedule D1, Text ID 9, Working Paper #1, Page 2, Note 2, that when calculating its PS/FT Demand Charge the TBO Unit Rate of \$0.0165 and the Zone 3 Electric Power Unit Rate of \$0.0118 (from Transco's Firm Transportation Service Rates, 9th Revised Second Revised Sheet No. 40) were used twice, and therefore, the PS/FT Demand Charge was overstated by \$0.0283. The substitute tariff sheets correct this overstatement.

Additionally, ESNG is refileing its Fifth Revised Sheet No. 7 due on the final tariff sheet. ESNG on its redlined copy of Fifth Revised Sheet 7, in its original filing, changed from Fourth Revised Sheet No. 7 to Fifth Revised No. 7, but failed to change the pagination number on its final tariff sheet. Included in this filing is a properly paginated Sheet No. 7.

ESNG states that copies of the filing have been served upon its jurisdictional customers and interested State Commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 18 CFR 385.211 and 385.214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before April 7, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will
