BASF Corp., Lowland, TN; Amended Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In the matter of: TA-W-30,360 Nylon Hosiery Department, TA-W-30,360A Polyester Filament Department, and TA-W-30,360B Nylon Staple Fibers Department.

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance on December 7, 1994, applicable to all workers of the Nylon Hosiery Department. The Notice was published in the **Federal Register** on January 3, 1995 (60 FR 148).

A **Federal Register** Correction was issued on February 10, 1995 revising the date of the petition to August 1, 1994. The correction was published in the **Federal Register** on February 17, 1995 (60 FR 9407). The certification was subsequently amended on February 10, 1995 to include the Polyester Filament Department. The amended notice was published in the **Federal Register** on February 17, 1995 (60 FR 9407).

At the request of the company, the Department again reviewed the certification for workers of the subject firm. New findings show that the Nylon Staple Fibers business was part of the Fiber Products Division and worker separations and declines in sales and production have occurred in the relevant periods. Accordingly, the Department is amending the certification to include all workers at the Lowland, Tennessee plant.

The amended notice applicable to TA-W-30,360 is hereby issued as follows:

All workers of BASF Corporation, Lowland, Tennessee who became totally or partially separated from employment on or after August 1, 1993 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, DC., this 29th day of March, 1995.

Program Manager, Policy and Reemployment Services, Office of Trade Adjustment Assistance.
