Applicants' Conditions

Applicants agree that any order granting the requested relief will be subject to the following conditions:

1. Whenever the exchange option is to be terminated or its terms are to be amended materially, any holder of a security subject to that privilege will be given prominent notice of the impending termination or amendment at least 60 days prior to the date of termination or the effective date of the amendment, provided that: (a) No such notice need be given if the only material effect of an amendment is to reduce or eliminate the sales charge payable at the time of an exchange, to add one or more new Series eligible for the exchange option, or to delete a Series that has terminated; and (b) No notice need be given if, under extraordinary circumstances, either (i) there is a suspension of the redemption of Units of the Trust under section 22(e) of the Act and the rules and regulations promulgated thereunder, or (ii) a Trust temporarily delays or ceases the sale of its Units because it is unable to invest amounts effectively in accordance with applicable investment objectives, policies and restrictions.

2. An investor who purchases Units under the exchange option will pay a lower aggregate sales charge than that which would be paid for the Units by a new investor.

3. The prospectus of each Trust offering exchanges and any sales literature or advertising that mentions the existence of the exchange option will disclose that the exchange option is subject to modification, termination or suspension, without notice except in certain limited cases.

4. Each Series offering Units subject to a deferred sales charge will include in its prospectus the table required by item 2 of Form N–1A (modified as appropriate to reflect the differences between unit investment trusts and open-end management investment companies) and a schedule setting forth the number and date of each installment payment.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

NAFTA Land Transportation Standards Subcommittee Work Program

AGENCY: Office of the Secretary, Office of International Transportation and Trade, DOT.

ACTION: Notice.

SUMMARY: This notice gives the status of the Department of Transportation's (DOT) actions to implement the Land Transportation Standards Subcommittee (LTSS) work program set forth in the North American Free Trade Agreement (NAFTA). It also describes the LTSS' scope of work, notifies the public of upcoming meetings, and invites interested parties to write to DOT to be included in the Department's distribution list for LTSS reports and related information.

The United States, Canada, and Mexico intend to continue to work to develop more compatible land transportation standards through the LTSS in accordance with a timetable set in the NAFTA. Five working groups of federal and state government technical experts from the three countries were established last year to accomplish this work under the direction of the LTSS. The groups made considerable progress during the NAFTA's first year, including the completion of efforts related to cross-border rail operations. Representatives from industry, labor, and safety advocacy organizations, while not directly involved in the LTSS process, may take part in briefings and listening sessions conducted before or after the official meetings. In 1994, the LTSS held one plenary session, one executive session, and eight working group meetings. Copies of the LTSS 1994 Annual Report will be available in mid-May. The U.S. Department of Transportation conducted two public briefings in August and November 1994. The Department intends to publish periodic notices on the LTSS' activities, and to distribute regularly relevant information to individuals and organizations on its mailing list. Respondents are requested to send a fax or a post card with their full names and addresses to DOT, specifying the group(s) about which they would like to receive information.
