#### **Environmental Impact Statement: Broome County, NY**

**AGENCY:** Federal Highway Administration (FHWA), New York State Department of Transportation (NYSDOT).

**ACTION:** Notice of intent.

**SUMMARY:** The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed bridge crossing the Susquehanna River connecting Route 17C with Route 17 and Route 434 in eastern Tioga/western Broome Counties, New York.

#### **FOR FURTHER INFORMATION CONTACT:**

Harold J. Brown, Division Administrator, Federal Highway Administration, New York Division, Leo W. O'Brien Federal Building, 9th Floor, Clinton Avenue and North Pearl Street, Albany, New York 12207, Telephone: (518) 431-4127.

or

Richard R. Church, Regional Director, New York State Department of Transportation, Binghamton State Office Building, 44 Hawley Street, Binghamton, New York 13901-3200, Telephone: (607) 721-8116.

**SUPPLEMENTARY INFORMATION:** The FHWA, in cooperation with the

NYSDOT, will prepare an Environmental Impact Statement (EIS) on a proposal to construct a bridge and associated approach roadway and interchange ramps for a new crossing of the Susquehanna River connecting NYS Route 17C with NYS Route 17 and NYS Route 434 in one of the four corridors located between Hiawatha Boulevard in the town of Owego, Tioga County and NYS Route 26 in the town of Vestal and village of Endicott, Broome County.

Four alternatives and the no-build alternative are under consideration. The four build alternatives (referred to as A1, B2, C4 and D2) represent the bridge alignments deemed most feasible in each of the proposed corridors. All four of the alternatives would connect Route 434 with Route 17C. Alternatives A1, B2 and C4 would also provide access to Route 17. Alternative D2, being a local connector, would not.

All four bridge alternatives would span the Susquehanna River. Alternatives A1, B2 and C4 would also span Route 17 on the south side of the river and the Conrail tracks on the north side of the river. Betterments being considered along Route 434 and Route 17C would be limited to intersection improvements required at the termini of the proposed bridge alternatives.

The proposed project has possible benefits including reduced traffic congestion, improved mobility, and increased potential for community cohesion, growth and economic development.

Letters describing the proposed action and soliciting comments have been sent to appropriate Federal, State and local agencies, and others who have previously expressed interest in this proposal. Public information meetings were held in the town of Vestal on November 30, 1993 and in the town of Apalachin on December 1, 1993. Meetings were also held with local officials in the towns of Vestal, Union and Owego in September 1993. The issues raised by written correspondence and at the local public information meetings will be incorporated into the EIS. The Draft EIS will be available for public and agency review and comment.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the NYSDOT or FHWA at the addresses provided above by May 15, 1995.
