Appendix B Subcommittee for the Recombinant DNA Advisory Committee; Meeting

Notice is hereby given of a meeting of the Appendix B Subcommittee for the Recombinant DNA Advisory Committee on May 5, 1995, at the National Institutes of Health (NIH), Building 31C, 6th Floor, Conference Room 8, 9000 Rockville Pike, Bethesda, Maryland 20892, starting at approximately 9 a.m. to adjournment at approximately 5 p.m. The meeting will be open to the public to discuss updating Appendix B, *Classification of Microorganisms on the Basis of Hazard*, and additional revisions to the remaining appendices of the NIH Guidelines for Research Involving Recombinant DNA Molecules (59 FR 34496 and amended 59 FR 40170) that are required to adequately accommodate the revised Appendix B. Members of the public wishing to speak at this meeting may be given such opportunity at the discretion of the Chair. Attendance by the public will be limited to space available.

Dr. Nelson A. Wivel, Director, Office of Recombinant DNA Activities, Suite 323, National Institutes of Health, 6006 Executive Boulevard, MSC 7052, Bethesda, Maryland 20892-7052, Phone (301) 496-9838, FAX (301) 496-9839, will provide materials to be discussed at this meeting, roster of committee members, and substantive program information. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should contact Dr. Wivel in advance of the meeting. A summary of the meeting will be available at a later date.

OMB's "Mandatory Information Requirements for Federal Assistance Program Announcements" (45 FR 39592, June 11, 1980) requires a statement concerning the official government programs contained in the *Catalog of Federal Domestic Assistance*. Normally NIH lists in its announcements the number and title of affected individual programs for the guidance of the public. Because the guidance in this notice covers not only virtually every NIH program but also essentially every Federal research program in which DNA recombinant molecule techniques could be used, it has been determined not to be cost effective or in the public interest to attempt to list these programs. Such a list would likely require several additional pages. In addition, NIH could not be certain that every Federal program would be included as many Federal agencies, as well as private organizations, both national and international, have elected to follow the *NIH Guidelines*. In lieu of the individual program listing, NIH invites readers to direct questions to the information address above about whether individual programs listed in the *Catalog of Federal Domestic Assistance* are affected.

Committee Management Officer, NIH.

SUPPLEMENTARY INFORMATION:

I. Purpose and Scope

This notice announces the proposed availability of funds for grants for targeted assistance for services to refugees in counties where, because of factors such as unusually large refugee populations, high refugee concentrations, and high use of public assistance, there exists and can be demonstrated a specific need for supplementation of resources for services to this population.

The Office of Refugee Resettlement (ORR) has available \$49,397,000 in FY 1995 funds for the targeted assistance program (TAP) as part of the FY 1995 appropriation for the Department of Health and Human Services (Pub. L. 103-333).

admitted to the U.S. as immigrants, and certain Amerasians from Vietnam who are U.S. citizens. (See section II of this notice on Authorization.) The term refugee, used in this notice for convenience, is intended to encompass such additional persons who are eligible to participate in refugee program services, including the targeted assistance program.

Refugees admitted to the U.S. under admissions numbers set aside for private-sector-initiative admissions are not eligible to be served under the targeted assistance program (or under other programs supported by Federal refugee funds) during their period of coverage under their sponsoring agency's agreement with the Department of State—usually two years from their date of arrival, or until they obtain permanent resident alien status, whichever comes first.

The House Appropriations Committee Report reads as follows with respect to targeted assistance funds (H.R. Rept. No. 103-553, p. 93):

This program provides grants to States for counties which are impacted by high concentrations of refugees and high dependency rates. The Committee intends that \$19,000,000 of the total recommended for targeted assistance be provided to continue the current program of support to communities affected as a result of the massive influx of Cuban and Haitian entrants. The Committee also intends that 10 percent of the total appropriated for targeted assistance be used for grants to localities most heavily impacted by the influx of refugees such as Laotian Hmong, Cambodians, and Soviet Pentecostals, including secondary migrants who entered the United States after October 1, 1979. The Committee expects these grants to be awarded to communities not presently receiving targeted assistance because of previous concentration requirements and other factors in the grant formulas, as well as those who do currently receive targeted assistance grants.

The Senate Appropriations Committee Report (S. Rept. No. 103-318, p. 154) is consistent with the above-quoted House Report.

The Conference Report on Appropriations (H. Rept. No. 103-733, p. 24) clarifies Congress' intent on the use of the \$19 million for communities affected by Cuban and Haitian entrants as follows:

The conferees are agreed that \$19,000,000 of the \$49,397,000 appropriated for targeted assistance is to serve communities affected by the Cuban and Haitian entrants and refugees whose arrivals in recent years have increased.

The Director of the Office of Refugee Resettlement (ORR) proposes to use the \$49,397,000 appropriated for FY 1995 targeted assistance as follows:

- \$25,457,300 will be allocated under the updated formula, as set forth in this notice.

- \$19,000,000 will be awarded to serve communities most heavily affected by recent Cuban and Haitian entrant and refugee arrivals.

- \$4,939,700 (10% of the total) will be awarded as second-year continuation grants in a two-year project period under a discretionary grant announcement that was issued in FY 1994.

In addition, the Office of Refugee Resettlement has available an additional \$6,000,000 in FY 1995 funds to augment the targeted assistance 10% program through the Foreign Operations, Export
