South Carolina Electric & Gas Company, et al.; Availability of Draft Environmental Assessment

April 11, 1995.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission's) Regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Hydropower Licensing has reviewed the applications for new licenses for the following three existing hydroelectric Projects, all of which are located on the Broad River: (1) The Neal Shoals Project (No. 2315-002), located in Chester and Union County, South Carolina, near Carlisle, SC; (2) the Ninety-Nine Islands Project (No. 2331-002), located in Cherokee County, South Carolina near Gaffney, SC; and (3) the Gaston Shoals Project (No. 2332-003), located in Cherokee County, South Carolina and Cleveland County, North Carolina, near

Gaffney, SC. The Commission has prepared a Draft Multiple Project Environmental Assessment (Draft EA) covering all three projects. In the Draft EA, the Commission's staff has analyzed the existing and potential future environmental impacts of the projects and has concluded that licensing the projects, with appropriate environmental protective or enhancement measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the Draft EA are available for review in the Public Reference Branch, Room 3104, of the Commission's offices at 941 North Capitol Street, N.E., Washington, D.C. 20426.

CNG Transmission Corp.; Application

April 11, 1995.

Take notice that on April 5, 1995, CNG Transmission Corporation (CNG), 445 West Main Street, Clarksburg, West Virginia 26301, filed in Docket No. CP95-303-000 an application pursuant to Section 7(b) of the Natural Gas Act, for permission and approval to abandon, in place, approximately 20.40 miles of 12-inch pipeline, known as H-197, located in Wetzel and Marshall Counties, West Virginia, all as more fully set forth in the application on file with the Commission and open to public inspection.

CNG states that line H-197 was constructed in 1946 to serve various industrial plants along the Ohio River basin. It is stated that many of those plants have closed over the years eliminating the market need for that section of H-197. CNG further states that during the ensuing decades, corrosion has created a substantial number of leaks in that pipeline segment.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 2, 1995, file with the Federal Energy

Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for CNG to appear or be represented at the hearing.
