[GSA Bulletin FTR 15]

April 7, 1995

To: Heads of Federal agencies

Subject: Reimbursement of higher actual subsistence expenses for official travel to Oshkosh (Winnebago County), Wisconsin

1. *Purpose.* This bulletin informs agencies of the establishment of a special actual subsistence expense ceiling for official travel to Oshkosh (Winnebago County), Wisconsin, due to the escalation of lodging rates during the annual Experimental Aircraft Association Convention and Show held there. This special rate applies to claims for reimbursement covering travel during the period July 22, 1995, through August 5, 1995.

2. *Background.* The Federal Travel Regulation (FTR) (41 CFR chapters 301-304) part 301-8 permits the Administrator of General Services to establish a higher maximum daily rate for the reimbursement of actual subsistence expenses of Federal employees on official travel to an area within the continental United States. The head of an agency may request establishment of such a rate when special or unusual circumstances result in an extreme increase in subsistence costs for a temporary period. The Secretary of Transportation (DOT) requested establishment of such a rate for Oshkosh to accommodate employees who perform temporary duty there and experience a temporary but significant increase in lodging costs due to the escalation of lodging rates during the annual Experimental Aircraft Association Convention and Show. These circumstances justify the need for higher subsistence expense reimbursement in Oshkosh during the designated period.

3. *Maximum rate and effective date.* The Administrator of General Services, pursuant to 41 CFR 301-8.3(c), has increased the maximum daily amount of reimbursement that may be approved for actual and necessary subsistence

expenses for official travel to Oshkosh (Winnebago County), Wisconsin for travel during the period July 22, 1995, through August 5, 1995. Agencies may approve actual subsistence expense reimbursement not to exceed \$167 (\$137 maximum for lodging and a \$30 allowance for meals and incidental expenses) for official travel to Oshkosh (Winnebago County), Wisconsin, during this time period.

4. *Expiration date.* This bulletin expires on September 30, 1995.

5. *For further information contact.* Jane E. Groat, General Services Administration, Transportation Management Division (FBX), Washington, DC 20406, telephone 703-305-5745.

By delegation of the Commissioner, Federal Supply Service.
Allan W. Beres,

Assistant Commissioner, Office of Transportation and Property Management.

Agency for Toxic Substances and Disease Registry

Public Meeting of the Native American Working Group, in Association With the Meeting of the Citizens Advisory Committee on Public Health Service Activities and Research at Department of Energy (DOE) Sites: Hanford Health Effects Subcommittee

The Agency for Toxic Substances and Disease Registry (ATSDR) and the Centers for Disease Control and Prevention (CDC) announce the following meeting:

Name: Public Meeting of the Native American Working Group (NAWG), in association with the meeting of the Citizens Advisory Committee on Public Health Service Activities and Research at DOE Sites: Hanford Health Effects Subcommittee.

Time and date: 8:30 a.m.-12 noon, May 15, 1995.

Location: The Portland Hilton Hotel, 921 S.W. Sixth Avenue, Portland, Oregon 97204, telephone (503) 226-1611, FAX (503) 220-2293.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 150 people.

Background: A Memorandum of Understanding (MOU) was signed in October 1990 and renewed in November 1992 between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

In addition, under an MOU signed in December 1990 with DOE, the Department of

Health and Human Services (HHS) has been given the responsibility and resources for conducting analytic epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production and use. HHS delegated program responsibility to CDC.

Community involvement is a critical part of ATSDR's and CDC's energy-related research and activities and input from members of NAWG is part of these efforts. NAWG will work with the Hanford Health Effects Subcommittee to provide input on Native American health effects at the Hanford, Washington, site.

Purpose: The purpose of this meeting of NAWG is to discuss Native American membership and participation on the Hanford Health Effects Subcommittee, government-to-government working relations with ATSDR and CDC, and issues related to site restoration and waste management options at the Hanford DOE site.

Matters To Be Discussed: Agenda items will include options for other types of relationships between the tribes and ATSDR and CDC regarding the study of health effects from past, current, or future release of radioactive and hazardous materials into the environment at Hanford and proposed actions based on the findings of ATSDR and CDC health research and public health activities.

Agenda items are subject to change as priorities dictate.
