BILLING CODE 7590-01-M

[Docket No. 50-322; License No. NPF-82]

In the Matter of: Long Island Power Authority (Shoreham Nuclear Power Station, Unit 1); Order Terminating the Facility Operating License

I

Long Island Power Authority (LIPA or the licensee) is the holder of Facility Operating License No. NPF-82, issued by the U.S. Nuclear Regulatory Commission (NRC) pursuant to part 50 of Title 10 of the Code of Federal Regulations (10 CFR) on April 21, 1989. The license was amended on June 14, 1991, to remove the authority to operate the Shoreham Nuclear Power Station (SNPS), in accordance with conditions specified therein, and authorized the possession only for SNPS. The facility is located on LIPA's site in the town of Brookhaven, Suffolk County, New York.

II

On February 28, 1989, Long Island Lighting Company (LILCO), the former licensee, entered into an agreement with the State of New York to transfer its Shoreham assets to an entity of the State (LIPA) for decommissioning. LILCO, however, continued to pursue with NRC its request for a full-power license to operate its Shoreham plant. On April 21, 1989, NRC issued to LILCO a Facility Operating License No. NPF-82, which allowed full-power operation of the Shoreham plant. On June 28, 1989, LILCO's shareholders ratified LILCO's agreement with the State. Consistent with the terms of the settlement agreement, which prohibits further operation of the Shoreham facility,
