BILLING CODE 7590-01-M

Advisory Committee on Reactor Safeguards; Subcommittee Meeting on Reactor Fuels; Notice of Meeting

The ACRS Subcommittee on Reactor Fuels will hold a meeting on May 3, 1995, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

The entire meeting will be open to public attendance.

The agenda for the subject meeting shall be as follows:

Wednesday, May 3, 1995—8:30 a.m. until the conclusion of business.

The Subcommittee will begin review of the NRC and industry programs being conducted to address issues associated with the use of high-burnup fuel. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman; written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff engineer named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the NRC staff, its consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting the cognizant ACRS staff engineer, Dr. Medhat El-Zeftawy (telephone 301/415-6889) between 7:30 a.m. and 4:15 p.m. (EDT). Persons planning to attend this meeting

are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes in the proposed agenda, etc., that may have occurred.

Dated: April 11, 1995.

Sam Duraiswamy,

Chief, Nuclear Reactors Branch.

BILLING CODE 7590-01-M

[Docket No. 50-219]

Issuance of Amendment to Facility Operating License; GPU Nuclear Corporation

The U.S. Nuclear Regulatory Commission (Commission) has issued Amendment No. 179 to Facility Operating License No. DPR-16 issued to GPU Nuclear Corporation (the licensee), which revised the Technical Specifications for operation of the Oyster Creek Nuclear Generating Station located in Ocean County, New Jersey. The amendment is effective as of the date of issuance, to be implemented within 30 days of issuance.

The amendment revises Technical Specification 5.3.1.E to allow 2645 fuel assemblies to be stored in the fuel pool. This is an increase of 45 fuel assemblies from the current limit of 2600 fuel assemblies. The 45 additional storage locations currently exist in the racks in the fuel pool.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

Notice of Consideration of Issuance of Amendment and Opportunity for Hearing in connection with this action was published in the **Federal Register** on December 20, 1994 (59 FR 65542). No request for a hearing or petition for leave to intervene was filed following this notice.

The Commission has prepared an Environmental Assessment related to the action and has determined not to prepare an environmental impact statement. Based upon the environmental assessment, the Commission has concluded that the issuance of the amendment will not have a significant effect on the quality of the human environment (60 FR 17373).

For further details with respect to the action see (1) the application for

amendment dated November 25, 1994, as supplemented February 15, 1995, and (2) Amendment No. 179 to License No. DPR-16, (3) the Commission's related Safety Evaluation, and (4) the Commission's Environmental Assessment. All of these items are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street NW., Washington, DC, and at the local public document room located at the Ocean County Library, Reference Department, 101 Washington Street, Toms River, NJ 08753.

Dated at Rockville, Maryland, this 10th day of April 1995.

For the Nuclear Regulatory Commission.

Alexander W. Dromerick, Sr.,

Project Manager, Project Directorate I-3, Division of Reactor Projects—I/II, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-M

[Docket No. 50-322; License No. NPF-82]

In the Matter of: Long Island Power Authority (Shoreham Nuclear Power Station, Unit 1); Order Terminating the Facility Operating License

I

Long Island Power Authority (LIPA or the licensee) is the holder of Facility Operating License No. NPF-82, issued by the U.S. Nuclear Regulatory Commission (NRC) pursuant to part 50 of Title 10 of the Code of Federal Regulations (10 CFR) on April 21, 1989. The license was amended on June 14, 1991, to remove the authority to operate the Shoreham Nuclear Power Station (SNPS), in accordance with conditions specified therein, and authorized the possession only for SNPS. The facility is located on LIPA's site in the town of Brookhaven, Suffolk County, New York.

II

On February 28, 1989, Long Island Lighting Company (LILCO), the former licensee, entered into an agreement with the State of New York to transfer its Shoreham assets to an entity of the State (LIPA) for decommissioning. LILCO, however, continued to pursue with NRC its request for a full-power license to operate its Shoreham plant. On April 21, 1989, NRC issued to LILCO a Facility Operating License No. NPF-82, which allowed full-power operation of the Shoreham plant. On June 28, 1989, LILCO's shareholders ratified LILCO's agreement with the State. Consistent with the terms of the settlement agreement, which prohibits further operation of the Shoreham facility,
