BILLING CODE 6450-01-P

Accelerated Directives Reduction

AGENCY: Department of Energy.

ACTION: Notice of availability of draft DOE directives.

SUMMARY: The United States Department of Energy (DOE), which is revising, clarifying, and reducing existing internal orders, including a number which are considered burdensome, is making available to the public copies of its revised draft orders as they are released for comment to points-of-contact, including DOE's Field Offices and contractors.

ADDRESSES: The draft orders will be available in the Public Reading Room at DOE headquarters, Room 1E-190, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585. In addition, copies of the draft orders will be made available through the World Wide Web, the Uniform Resource Locator (URL), which is accessed as follows:

HTTP://WWW.HR.DOE.GOV

(* Directives are located under "The Reference Shelf")

Drafts may also be accessed via Gopher at the following address:

GOPHER.HR.DOE.GOV

(* Directives are listed under the "Department of Energy Information" folder).

FOR FURTHER INFORMATION CONTACT:

JoAnne Whitman, HR-62, by telephone

at (202) 586-3282 or by mail at the following address: JoAnne Whitman, HR-62, United States Department of Energy, 1000 Independence Avenue, S.W., Washington, D.C. 20585.

SUPPLEMENTARY INFORMATION: In response to the Report of the Task Force on Alternative Futures for DOE's National Laboratories (Galvin Report), and DOE's ongoing Strategic Realignment Initiative, DOE has accelerated efforts already underway to revise internal Departmental directives in order to reduce their burden and improve the efficiency of DOE contractor operations. DOE plans to reduce approximately 90 internal directives, including the 26 considered most burdensome by DOE national laboratories and contractors, to approximately 24 greatly simplified orders covering DOE programs in Environment, Safety and Health; Field Management; Nonproliferation and National Security; and Environmental Management.

The revised draft directives are being circulated for comment to both Federal and contractor representatives at DOE Headquarters and in the Field. DOE expects that measurable improvements to its directives system will be in place by August 1995. This accelerated process will dramatically improve the cost-effectiveness of affected programs, while meeting environmental safety, health, and fiscal accountability requirements.

DOE will provide public access to the draft orders as provided in this notice. Questions or comments may be addressed to the DOE employee identified in this notice.

Issued in Washington, DC on April 11, 1995.
