

water inundation. This alternative was rejected by the City for a number of reasons. First, the current system is antiquated, in need of major renovations and near capacity. Second, continued use of the existing WWTF will likely cause discharge of effluent into the Tuolumne River, one of the nation's waterways. Third, the City anticipates changes in rules and regulations governed by the California Water Quality Control Board concerning small City WWTF's that will require the type of expansion contemplated by the City's proposed plan.
