

movement of the bayou, and the dictates of enhanced design technique make it advisable to install replacement facilities, which would be located approximately 100 feet south of the existing right-of-way. Tennessee proposes to use the existing cleared right-of-way to the maximum extent possible for an expanded work and staging area. The replacement line will consist of approximately 1,800 feet of piggyback 24-inch pipeline, horizontally drilled, beginning at Milepost 47-1+1.72 and extending to Milepost 47-1+2.06 on Tennessee's Mainline 100-1 in Ouachita Parish, Louisiana. Tennessee states that directionally drilled pipelines under rivers are significantly more secure than older pipelines which were installed by way of trenching under the river bed. Tennessee indicates that upon completion of the proposed construction, the existing 1.2 acre existing right-of-way, after grading and implementation of erosion and revegetation measures, will be permitted to revert to its natural state.

Tennessee states that the replacement will not increase the capacity of Tennessee's mainline. No compression or metering facilities will be added or modified. Nor will there be any effect on Tennessee's customers, since Mainlines 100-2, 100-3, and 100-4 will handle all of the diverted gas volumes until the bayou crossing replacement is completed.

Tennessee estimates that the replacement project will cost approximately \$1,085,458 for the pipeline facilities and \$368,938 for abandonment of the three 16-inch lines.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 5, 1995, file with the Federal Energy Regulatory Commission, Washington, DC 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by sections 7 and 15 of the Natural Gas Act

and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and approval for the proposed abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Tennessee to appear or be represented at the hearing.

Lois D. Cashell,
Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Office of the Secretary****Findings of Scientific Misconduct**

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) has made final findings of scientific misconduct in the following case:

James T. Kurtzman, M.D., University of California at San Francisco. An investigation conducted by the University found that Dr. Kurtzman, a former Resident/Fellow in the Department of Obstetrics, Gynecology, and Reproductive Sciences, falsified results of research on the kinetics of nitric oxide synthase in cells and homogenates of human myometrial tissue in pregnant women. Dr. Kurtzman admitted that he had altered data in eight experiments that he performed during December 1993 and January 1994. Dr. Kurtzman reported that he had conducted the enzyme assays and entered the data into a computer-based spreadsheet, but then changed the data to generate graphs that would reproduce the type of results that he had submitted earlier to the Journal of Clinical Investigation. The paper was not published. Dr. Kurtzman executed a Voluntary Exclusion and Settlement Agreement in which he has agreed not to apply for Federal grant or contract funds and will not serve on PHS advisory committees, boards or peer review groups for a three-year period beginning March 18, 1995. The voluntary exclusion, however, shall not apply to Dr. Kurtzman's future training or practice of clinical medicine whether as a resident, fellow, or licensed practitioner, as the case may be, unless that practice involves federally funded research or the direct receipt of an award for federally funded research training.

FOR FURTHER INFORMATION, CONTACT: Director, Division of Research Investigations, Office of Research Integrity, 301-443-5330.
