

[Project No. 2009-003]

**Virginia Electric and Power Company;
Public Conference**

April 26, 1995.

Please take notice that on May 3, 1995, at 10:00 a.m., the Commission will convene a public conference regarding the status of the application of Virginia Electric and Power Company to amend its license in such a manner as to authorize withdrawal of certain water from the Lake Gaston reservoir of the Roanoke Rapids Project, and to construct and operate a water intake facility within the project boundary for that purpose.

Consistent with its commitments to process the application expeditiously, the Commission is timely progressing towards completion of its environmental analysis and resolution of the proceeding. The Commission has become aware that parties to the proceeding are pursuing a potential settlement. The purpose of the conference is to afford the parties an opportunity to bring to the Commission's attention any information that they believe may be pertinent to the Commission's procedural schedule for issuance of the Final Environmental Impact Statement and an order on the application. The purpose of the conference is not to address the merits of the application. The Commission specifically requests the applicant, the City of Virginia Beach, and the State of North Carolina to appear. Other parties wishing to be heard on the subject of the conference may also appear.

The conference will be held at the Commission's offices, 825 North Capitol Street, N.E., Washington, D.C., in the Commission Meeting Room, Room 9306. The conference will be recorded by a stenographer, and all statements will become part of the Commission's public record of this proceeding. Anyone wishing to receive a copy of the transcript of the conference may contact Ann Riley & Associates by calling (202) 293-3950, or writing to 1612 K Street, N.W., Suite 300, Washington, D.C. 20006.

For further information, please contact Lon R. Crow at (202) 219-2651.

Lois D. Cashell,*Secretary.*

BILLING CODE 6717-01-M

[Docket No. RP95-193-001]

**Williston Basin Interstate Pipeline
Company; Notice of Tariff Filing**

April 25, 1995.

Take notice that on April 14, 1995, Williston Basin Interstate Pipeline Company (Williston Basin) tendered for filing revised tariff sheets to its FERC Gas Tariff, Second Revised Volume No. 1.

Williston Basin states that the revised sheets are being filed in compliance with Ordering Paragraph (A) of the Commission's March 30, 1995 order in Docket No. RP95-193-000.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rule 211 of the Commission's Rules of Practice and Procedure (18 CFR 285.211). All such protests should be filed on or before May 2, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of the filing are on file with the Commission and are available for public inspection.

BILLING CODE 6717-01-M

**ENVIRONMENTAL PROTECTION
AGENCY**

[FRL-5199-9]

**Notification of Establishment of an
Advisory Committee To Address Urban
Municipal Wet Weather Issues;
Announcement of the Sanitary Sewer
Overflow Subcommittee May 18-19,
1995, Meeting****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

SUMMARY: EPA has established the Urban Wet Weather Flows Advisory Committee under the Federal Advisory Committee Act (FACA) to develop recommendations to coordinate the implementation of urban, municipal wet weather water pollution control programs. The charter for the Advisory Committee was approved by the Office of Management and Budget on March 10, 1995. As required by section 9(a)(2) of FACA, 5 U.S.C. App. 2, EPA is giving notice of the establishment of such committee to assist the Agency in the development of cost-effective solutions

for controlling the environmental and human health impacts of urban wet weather flows with a minimum of regulatory burden. EPA believes that the Committee is necessary and in the public interest. The Committee will provide a forum for identifying and addressing issues associated with water quality impacts from these sources. Copies of the Committee's charter will be filed with the appropriate committees of Congress and the Library of Congress in accordance with section 9(c) of FACA.

To be most efficient we are planning two subcommittees under the Urban Wet Weather Flows Advisory Committee. A subcommittee addressing Sanitary Sewer Overflows (SSOs) has been formed and will hold its first formal meeting in Washington, D.C. on May 18 and 19, 1995. The purpose of this meeting is to discuss several issues related to SSOs. On May 18, the meeting will begin at approximately 8:30 AM and run until about 5:00 PM. On May 19, the meeting will begin at 8:30 AM and continue until completion.

The Advisory Committee and another subcommittee dealing with Storm Water Phase II issues will be formed in the near future. EPA is currently in the process of convening these groups.

Consistent with the requirements of FACA, the membership of both the Advisory Committee and its subcommittees is being balanced among the Agency's various outside stakeholder interests, including representatives from municipalities, industrial and commercial sectors, environmental and public interest groups, States, and Indian Tribes, and EPA. Members will be selected and appointed for the duration of the process. A Federal Official or EPA employee will serve as the Designated Federal Officer and will be present at all meetings.

DATE: The SSO Subcommittee will meet on May 18-19, 1995.**ADDRESS:** The SSO Subcommittee meeting will be held at the Best Western Old Colony Inn, 625 First Street, Alexandria, VA 22314. The hotel telephone number is (703) 548-6300.**FOR FURTHER INFORMATION CONTACT:** For information about substantive or technical matters that will be considered by the Advisory Committee, or information about the procedural aspects of Committee operation and the FACA process, contact: William Hall, Office of Wastewater Management, US EPA (4203), 401 M Street, SW, Washington, DC 20460, telephone: (202) 260-1458.
