

Needs and Uses: The Census Bureau requests OMB approval for a generic clearance to undertake a number of activities it plans to conduct to create and update its Master Address File (MAF) and maintain the linkage between the MAF and the Topologically Integrated Geographic Encoding and Referencing (TIGER) data base of address ranges and associated geographic information. These activities will be conducted on a schedule to support preparations for the 2000 decennial census, but also will support the address matching and geocoding requirements of the proposed Continuous Measurement program, the population estimates program, the economic and agriculture censuses, and the current demographic surveys. This clearance will allow the Census Bureau to focus its limited resources on operational planning and procedural development activities. The activities to be conducted under this clearance are: Listing, Update/Leave, MAF

Reconciliation, Canvassing, Block Splits, Field Verification, Master Address File Quality Improvement Program (MAF QIP), the Address List Availability Survey (ALAS), and the Rural Address Reference Availability Survey (RARAS). The Census Bureau has conducted each category of activity (or similar ones) previously and the burden remains relatively unchanged from one time to another. **Affected Public:** Individuals or households. **Frequency:** One-time. **Respondent's Obligation:** Mandatory. **OMB Desk Officer:** Maria Gonzalez, (202) 395-7313. Copies of the above information collection proposal can be obtained by calling or writing Gerald Taché, DOC Forms Clearance Officer, (202) 482-3271, Department of Commerce, room 5312, 14th and Constitution Avenue, NW, Washington, DC 20230. Written comments and recommendations for the proposed information collection should be sent to

Maria Gonzalez, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Dated: April 27, 1995.

National Oceanic and Atmospheric Administration

Evaluation of State Coastal Management Programs and National Estuarine Research Reserves

AGENCY: Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration (NOAA), DOC.

ACTION: Notice of availability of evaluation findings.

SUMMARY: Notice is hereby given of the availability of the final evaluation findings for the Hawaii, North Carolina, and Virgin Islands Coastal Management Programs, and the Padilla Bay (Washington) and Waquoit Bay

(Massachusetts) National Estuarine Research Reserves (NERRs). Section 312 and 315 of the Coastal Zone Management Act of 1972 (CZMA), as amended, requires a continuing review of the performance of coastal states with respect to coastal management and the operation and management of NERRs.

The states of Hawaii and North Carolina were found to be implementing and enforcing their Federally approved coastal management programs, addressing the national coastal management objectives identified in CZMA section 303(2)(A)-(K), and adhering to the programmatic terms of their financial assistance awards.

The Territory of the Virgin Islands was found to be adhering to its approved program. However the Department of Planning and Natural Resources has not fully adhered to applicable terms of its financial assistance awards with respect to the timely completion of a critical grant task (Areas for Particular Concern management plans). Implementation of several recommendations listed in the findings will bring the Virgin Islands back into satisfactory adherence. Padilla Bay and Waquoit Bay NERRs were found to be satisfactorily adhering to programmatic requirements of the NERR system.

Copies of these final evaluation findings may be obtained upon request from: Vickie Allin, Chief, Policy Coordination Division, Office of Ocean and Coastal Resource Management, NOS/NOAA, 1305 East-West Highway, 11th Floor, Silver Spring, Maryland 20910 (301) 713-3087 x126

Dated: April 27, 1995.
