Underground Injection Control Program, Hazardous Waste Injection Restrictions; Petition for Exemption—Class I Hazardous Waste Injection; Rollins Environmental Services of Louisiana, Inc.

AGENCY: Environmental Protection Agency.

ACTION: Notice of Final Decision on Petition Reissuance.

SUMMARY: Notice is hereby given that reissuance of an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act has been granted to Rollins, for the Class I injection well located at Plaquemine, Louisiana. As required by 40 CFR Part 148, the company has adequately demonstrated to the satisfaction of the Environmental Protection Agency by petition and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by Rollins, of the specific restricted hazardous waste identified in the exemption reissuance, into the Class I hazardous waste injection well at the Plaquemine, Louisiana facility specifically identified in the reissued exemption, for as long as the basis for granting an approval of this exemption remains valid, under provisions of 40 CFR 148.24. As required by 40 CFR 124.10, a public notice was issued February 16, 1995. The public comment period closed on April 5, 1995. EPA received no comments.
