

Act of 1973 (ESA) (16 U.S.C. 1531–1543) and the NMFS regulations governing listed fish and wildlife permits (50 CFR parts 217–227).

Permit 919 (P503N) authorizes a take of listed Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) associated with a supplementation program at Sawtooth Hatchery. IDFG requests modification 1 to the permit for authorization to retain adult, listed, naturally-produced salmon that return to the adult trap for broodstock without any restrictions due to the annual forecasted runsize of returning adults. IDFG is currently authorized to retain adult, listed, naturally-produced salmon for broodstock when the annual forecasted runsize of returning adults is greater than or equal to 80. IDFG also requests authorization to release non-listed, hatchery-origin adults above the adult trap, if necessary, to meet the minimum target of 35 adult pairs to be released annually for natural spawning. Modification 1 is requested for the duration of the permit. Permit 919 expires on December 31, 1998.

Permit 921 (P503P) authorizes a take of listed Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) associated with a supplementation program at McCall Hatchery. IDFG requests modification 1 to the permit for authorization to retain adult, listed, naturally-produced salmon that return to the adult trap for broodstock without any restrictions due to the annual forecasted runsize of returning adults. IDFG is currently authorized to retain adult, listed, naturally-produced salmon for broodstock when the annual forecasted runsize of returning adults is greater than or equal to 80. IDFG also requests authorization to release non-listed, hatchery-origin adults above the adult trap at Stolle Meadows, if necessary, to meet the minimum target of 35 adult pairs to be released annually for natural spawning. Modification 1 is requested for the duration of the permit. Permit 921 expires on December 31, 1998.

Permit 922 (P503Q) authorizes a take of listed Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) associated with a supplementation program at Pahsimeroi Hatchery. IDFG requests modification 1 to the permit for authorization to retain adult, listed, naturally-produced salmon that return to the adult trap for broodstock without any restrictions due to the annual forecasted runsize of returning adults. IDFG is currently authorized to retain adult, listed, naturally-produced salmon for broodstock when the annual forecasted

runsize of returning adults is greater than or equal to 100. IDFG also requests authorization to release all of the returning listed and non-listed hatchery-origin adults above the adult trap for natural spawning in 1995 due to the anticipated low adult return. IDFG's listed adult retention strategy is requested for the duration of the permit. The releases of listed and non-listed hatchery-origin adults is requested for 1995 only. Permit 922 expires on December 31, 1998.

Permit 847 (P211E) authorizes a take of listed Snake River spring/summer chinook salmon (*Oncorhynchus tshawytscha*) associated with supplementation programs at the Innaha River and Lookingglass Creek Hatcheries. ODFW requests modification 3 to the permit for authorization to retain all of the adult listed salmon that return to the adult trap for broodstock if the forecasted runsize of returning adults is less than 100. If the forecasted runsize of returning adults is greater than or equal to 100, ODFW proposes to release 20 percent of the returning adult listed salmon above the adult trap for natural spawning, with no restriction on the percentage of hatchery-origin fish to be released. ODFW is currently authorized to retain no more than 30 percent of the returning adult, listed, naturally-produced salmon for broodstock each year. ODFW's current permit also restricts the amount of hatchery-origin fish released annually above the adult trap for natural spawning to no more than 50 percent of the total annual releases. Modification 3 is requested for 1995 only. Permit 847 expires on March 31, 1998.

Those individuals requesting a hearing on any of these modification applications should set out the specific reasons why a hearing would be appropriate (see ADDRESSES). The holding of such a hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in these application summaries are those of the applicants and do not necessarily reflect the views of NMFS.
