

Dr. Herman accepted the misconduct finding as part of a Voluntary Settlement Agreement under which, for a period of three years, an institution which submits an application for PHS support for a clinical research project on which his participation is proposed or which uses him in any capacity on PHS supported clinical research must concurrently submit a plan for supervision of his duties. The supervisory plan must be designed to ensure the scientific integrity of Dr. Herman's research contribution. Dr. Herman also is prohibited from serving on any Public Health Service advisory committee, board, and/or peer review committee for a period of three years. He has agreed to submit a letter to the *International Journal of Radiation Oncology, Biology, Physics* requesting retraction of that portion of the article dealing with tumor response (Herman, et al., A Phase I-II Trial of Cisplatin, Hyperthermia and Radiation in patients with Locally Advanced Malignancies. *Int. J. Radiation Oncology Biol. Phys.* 17:1273-1278; 1989).

Public Health Service

Agency Forms Submitted to the Office of Management and Budget for Clearance

Each Friday the Public Health Service (PHS) publishes a list of information collection requests under review, in compliance with Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the PHS Report Clearance on (202) 690-7100.

The following requests have been submitted for review since the list was last published on April 28.

1. Application for Participation in the National Health Service Corps Scholarship Program—0915-0146—Extension, no change—This request for a two-year extension, no change, of the approval for the application form used by students to apply for scholarship support. During the next year, proposed changes to the application form will be pilot tested. Changes to the form will be submitted for OMB approval late in 1996. Respondents: Individuals or households; Number of Respondents: 5,000; Number of Responses per Respondent: 1; Average Burden per

Response: 1 hour; Estimated Annual Burden: 5,000 hours. Send comments to James Scanlon, Office of the Assistant Secretary for Health, Room 737-F, Humphrey Building, 200 Independence Ave., S.W., Washington, D.C. 20201.

2. Surveillance of Hazardous Substances Emergency Event—0923-0008—Extension, no change—To protect the public's health, ATSDR has established a national surveillance system which describes the impact of hazardous substances emergencies on the public's health. The information is used to examine the distribution of hazardous substance emergencies, describe the type and cause of morbidity and mortality of those affected, and develop strategies to reduce subsequent morbidity and mortality. Respondents: Individuals or households; Number of Respondents: 16; Number of Responses per Respondent: 357; Average Burden per Response: 1 hour; Estimated Annual Burden: 5,593 hours. Send comments to Shannah Koss, Human Resource and Housing Branch, New Executive Office Building, Room 10235, Washington, D.C. 20503.

3. CMHC Construction Grantee Checklist—0930-0104—Revision—To ensure that Community Mental Health Center (CMHC) facilities built with Federal assistance provide mental health services for a 20-year period as required, the Center for Mental Health Services will: (1) survey the universe of CMHC construction grantees actively fulfilling their 20-year service obligation and (2) utilize survey results to determine appropriate follow up, e.g., waivers, recovery activities.

Respondents: Not-for-profit institutions; Number of Respondents: 295; Number of Responses per Respondent: 1; Average Burden per Response: .33 hour; Estimated Annual Burden: 97 hours. Send comments to James Scanlon, Office of the Assistant Secretary for Health, Room 737-F, Humphrey Building, 200 Independence Ave., S.W., Washington, D.C. 20201.

4. Assessment of Work-Related Musculoskeletal Disorders in the Retail Food Industry—New—Work-Related Musculoskeletal Disorders among grocery cashiers have risen drastically since the introduction of the laser scanner. NIOSH investigators and other experts in ergonomics believe that certain checkstand features are more likely to impose substantial biomechanical stresses on cashiers than others. However, little research has been conducted to identify those activities and related postures of checking that contribute to the increased prevalence of WMD in this group of workers. The data collected in this study will be used

to develop interventions to reduce WMD among grocery checkers, including redesign of checkstands and development of better training courses. Respondents: Individuals or households; Number of Respondents: 1,000; Number of Responses per Respondent: 1; Average Burden per Response: 1.71 hours; Estimated Annual Burden: 1,710 hours. Send comments to Shannah Koss, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, D.C. 20503.

5. National Sample Survey of Registered Nurses VI—New—Current national data on employment and practice of registered nurses are needed to assess the current supply and project the future availability of nurses. This proposed project will provide detailed statistics on the registered nurse population needed to prepare the mandated Secretary's Report to Congress. Respondents: Individuals or households; Number of Respondents: 41,000; Number of Responses per Respondent: 1; Average Burden per Response: .33 hour; Estimated Annual Burden: 13,530 hours. Send comments to Shannah Koss, Human Resources and Housing Branch, New Executive Office Building, Room 10235, Washington, D.C. 20503.

Written comments and recommendations concerning the proposed information collections should be sent within 30 days of this notice directly to the individual designated.

Dated: April 27, 1995.

James Scanlon,

Director, Data Policy Staff, Office of the Assistant Secretary for Health and PHS Reports Clearance Officer.
