

Respondent states that all sales made during the POI were included in the data submitted to the Department, and that sales made after the POI should not be included in the Department's antidumping duty rate calculation.

DOC Position

We agree with respondent. We saw no evidence during verification that the sale relating to the shipment in question was made during the POI. During verification, we viewed another example of a sale by COTCO where a contract was not generated prior to shipment of the merchandise. Given the date of shipment, the invoice date, and based on statements by COTCO officials, we believe the sale should not be included in COTCO's sales data for the POI.

Continuation of Suspension of Liquidation

For Gao Yao, we calculated a zero margin. Consistent with *Notice of Final Determination of Sales at Less Than Fair Value: Certain Cased Pencils from the People's Republic of China* (59 FR 55625, November 8, 1994), merchandise that is sold by Gao Yao but manufactured by other producers will not receive the zero margin. Instead, such entries will be subject to the "PRC-wide" margin.

In accordance with sections 733(d)(1) and 735(c)(4)(B) of the Act, we are directing the Customs Service to continue to suspend liquidation of all entries of disposable pocket lighters from the PRC, that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. The Customs Service shall require a cash deposit or posting of a bond equal to the estimated amount by which the FMV exceeds the USP as shown below. These suspension of liquidation instructions will remain in effect until further notice. The weighted-average dumping margins are as follows:

Manufacturer/producer/exporter	Weighted-average margin percentage	Critical circumstances
China National Overseas Trading Corporation *	0	Affirmative.
Cli-Claque Company Ltd.	6.15	Affirmative.
Gao Yao (HK) Hua Fa Industrial Co., Ltd.	0	Negative.

Manufacturer/producer/exporter	Weighted-average margin percentage	Critical circumstances
Guangdong Light Industrial Products Import and Export Corporation.	27.91	Negative.
PolyCity Industrial, Ltd.	5.50	Negative.
PRC-Wide	197.85	Affirmative.

* This company has not disclosed for the public record the identity of its supplier or suppliers in the PRC. Upon public disclosure of this information to the Department, we will notify the Customs Service that sales through certain supply channels have an LTFV margin of zero and thus an exclusion from any order resulting from this investigation. Until and unless such disclosure is made, all entries will be subject to the "PRC-wide" deposit rate.

ITC Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission (ITC) of our determination. As our final determination is affirmative, the ITC will determine whether these imports are causing material injury, or threat of material injury, to the industry in the United States, within 45 days. If the ITC determines that material injury, or threat of material injury, does not exist, the proceeding will be terminated and all securities posted will be refunded or cancelled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing Customs officials to assess antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

This determination is published pursuant to section 735(d) of the Act and 19 CFR 353.20(a)(4).

Dated: April 27, 1995.

Susan G. Esserman,
Assistant Secretary for Import Administration.
