**Columbia Gas Transmission Corporation, et al.; Notice of Application**

May 1, 1995.

Take notice that on April 25, 1995, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, and National Fuel Gas Supply Corporation (National Fuel), 10 LaFayette Square, Buffalo, New York 14203, filed in Docket No. CP95-350-000 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon a transportation and exchange service, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicants propose to abandon the service which was authorized by the Commission in Docket No. CP77-465 and carried out under the terms of an agreement on file as Columbia's Rate Schedule X-96 and National Fuel's Rate Schedule X-16. It is stated that Columbia was authorized to transport gas for National Fuel in order for UGI Utilities Inc. (UGI), formerly UGI Corporation, to take advantage of a storage service furnished by National Fuel and National Gas Storage Corporation. It is stated that Columbia was authorized to deliver to National Fuel for UGI's account between 2 and 25 MMcf of gas per day for summer injection and between 3 and 35 MMcf of gas per day for winter withdrawal. It is explained that these deliveries were made at existing interconnections between Columbia and National Fuel. It is further explained that an additional point of interconnection was established in Cameron County, Pennsylvania, in order to make deliveries for injection into storage and withdrawal.

It is stated that in a letter dated July 12, 1993, Columbia notified National Fuel and UGI that it was terminating the transportation and exchange agreement effective May 10, 1994. Columbia explains that the services are no longer needed and that an alternative service is available to UGI under Columbia's Part 284 storage and transportation blanket certificate pursuant to its SST rate schedule. It is asserted that no gas volumes have been transported under

Rate Schedule X-96 since 1983, and there are no outstanding imbalances.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 22, 1995, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Columbia or National Fuel to appear or be represented at the hearing.
