DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Endangered and Threatened Wildlife and Plants; Notice of Availability of Draft Economic Analysis for the Designation of Critical Habitat in States of Washington, Oregon, and California for the Western Snowy Plover

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces that the draft economic analysis for the

proposed designation of critical habitat for the western snowy plover is available for public review. This draft document examines the economic effect of designating 28 areas in the states of Washington, Oregon and California.

DATES: Comments received by May 31, 1995, will be considered in the preparation of the final document.

ADDRESSES: Persons wanting to review the draft economic analysis may obtain a copy from Joel Medlin, Field Supervisor, U.S. Fish and Wildlife Service, Sacramento Field Office, 2800 Cottage Way, Room E-1803, Sacramento, CA 95825-1846. Written comments and materials concerning the draft economic analysis for the designation of critical habitat for the western snowy plover should be sent to Joel Medlin, Field Supervisor, at the address above. Written comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Ms. Karen J. Miller, Sacramento Field Office (see **ADDRESSES** section, telephone (916) 979-275, facsimile (916) 979-2723.

SUPPLEMENTARY INFORMATION: The Service listed the coastal population of the western snowy plover (*Charadrius alexandrinus nivosus*) as a threatened species on March 5, 1993 (58 FR 12864). The Service proposed critical habitat for the species on March 2, 1995 (60 FR 11768). The designated areas cover approximately 20,000 acres along 210 miles of coastline in the three states: 19 areas in California, 7 in Oregon, and 2 in Washington. The areas are largely in Federal ownership, but significant areas are state and privately owned land, particularly in California. The draft economic analysis estimates how the designation may affect Federal lands, as well as non-Federal activities authorized or funded by Federal agencies. Activities on private or state-owned lands that do not involve Federal permits, funding or other Federal actions would not be restricted by a designation of critical habitat. Economic effects caused by the listing of the plover as threatened and effects of other related statutes form the baseline from which critical habitat effects are measured. The draft analysis isolates the incremental economic and conservation effects of the critical habitat designation. Economic effects are measured by evaluating factors such as changes in national income, regional jobs, and household income.

Pursuant to section 4(b)(2) of the Endangered Species Act, as amended,

the Secretary of the Interior may exclude an area from critical habitat if it is determined that the economic or other benefits of exclusion outweigh the benefits of designating the area as critical habitat, unless such exclusion would lead to the extinction of the species. The economic analysis assists in making that determination.

Public Comment Solicited

The final economic analysis concerning the designation of critical habitat for the western snowy plover will consider information and recommendations from all interested parties. Therefore, comments or suggestions from the public, other concerned governmental agencies, the scientific community, industry or any other interested party concerning this draft document are solicited. All comments and materials received during the comment period will be considered in preparing the final economic analysis.

Authority: The authority for this action is the Endangered Species Act of 1973, as amended (16 USC 1531 *et seq.*)

Dated: May 1, 1995.

Director, U.S. Fish and Wildlife Service.

Notice of Intent To Repatriate Cultural Items in the Possession of The Maxwell Museum of Anthropology, University of New Mexico

AGENCY: National Park Service, Interior.

ACTION: Notice.

Act of 1990 of the intent to repatriate a cultural item in the possession of The Maxwell Museum of Anthropology, University of New Mexico, Albuquerque New Mexico, that meets the definitions of "object of cultural patrimony" and "sacred object" under section 2 of the act.

The object is a mask made of red cotton canvas and hide with a leather beak and eye circles, four fertility balls, one pointed appendage on top, and two faint black lines across the face. The mask is thought to date to between 1900 and 1930. The item was acquired by the Museum from Don Woodard of Woodard Trading Post on March 27, 1965 and was given the accession number 65.29.1.

Authorized representatives of the Hopi Tribe acting on behalf of the Katsina Society Priest and a

representative of the Katsina Clan of Walpi Village have identified the mask as a Mudhead (Koyemsi Katsina). They have identified the mask as having ongoing importance central to the Hopi tribe as a whole and which could not have been alienated, appropriated, or conveyed by any individual. They have also stated that the living mask is needed by traditional Hopi religious leaders for the practice of traditional Hopi religion by present day adherents. The Hopi tribe requested repatriation of the living mask (Koyemsi Katsina) in a letter dated March 31, 1995.

Based on the above mentioned information, officials of The Maxwell Museum of Anthropology have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity which can be reasonably traced between the mudhead mask and the Hopi Tribe. Officials of The Maxwell Museum of Anthropology have also determined that the mudhead mask meets the definition of object of cultural patrimony pursuant to 25 U.S.C. 3001 2.(3)(D). Officials of The Maxwell Museum of Anthropology have also determined that the mudhead mask meets the definition of Sacred Object pursuant to 25 U.S.C. 3001 2.(3)(C).

The Maxwell Museum's Director and Curatorial committee and the University of New Mexico officials have approved the repatriation of the Mudhead Mask to the Hopi Tribe.

This notice has been sent to officials of the Hopi Tribe. Representatives of any other Indian tribe that believes itself to be culturally affiliated with this object should contact Dr. Garth Bawden, Museum Director or Brenda Dorr, NAGPRA Project Director at the Maxwell Museum of Anthropology, University of New Mexico, Albuquerque, New Mexico 87131-1201, telephone: (505) 277-0195, before June 5, 1995. Repatriation of the to the Hopi Tribe can begin after that date if no additional claimants come forward.

Dated: May 2, 1995.
