## COMMODITY FUTURES TRADING COMMISSION

### Agricultural Advisory Committee; Sixth Renewal

The Commodity Futures Trading Commission has determined to renew again for a period of two years its advisory committee designated as the "Commodity Futures Trading Commission Agricultural Advisory Committee." The Commission certifies that the renewal of the advisory committee is in the public interest in connection with duties imposed on the Commission by the Commodity Exchange Act, 7 U.S.C. § 1, *et seq.*, as amended.

The objectives and scope of activities of the Agricultural Advisory Committee are to conduct public meetings and submit reports and recommendations on issues affecting agricultural producers, processors, and lenders and others interested in or affected by agricultural commodities markets, and to facilitate communications between the Commission and the diverse agricultural and agriculture-related organizations represented on the committee.

Commissioner Joseph B. Dial serves as Chairman and Designated Federal Official of the Agricultural Advisory Committee. The Committee's membership represents a cross-section of interested and affected groups including representatives of producers, processors, lenders and other interested agricultural groups.

Interested persons may obtain information or make comments by writing to the Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581.

Issued in Washington, DC on May 2, 1995, by the Commission.

**DEPARTMENT OF ENERGY****Notice of Pre-Scoping Workshop for the Stockpile Stewardship and Management Programmatic Environmental Impact Statement**

**AGENCY:** Department of Energy.

**ACTION:** Notice of Pre-Scoping Workshop for the Stockpile Stewardship and Management Programmatic Environmental Impact Statement.

**SUMMARY:** The Department of Energy (DOE) announces that it will conduct a pre-scoping workshop for the Stockpile Stewardship and Management (SS&M) Programmatic Environmental Impact Statement (PEIS). The purpose of the pre-scoping workshop is to provide the public with an opportunity to present comments, ask questions, and discuss concerns regarding SS&M activities with DOE officials. An interactive format will be used for the workshop. Input from the pre-scoping workshop will assist DOE in formulating the notice of intent (NOI) for the SS&M PEIS, and refining alternatives for consideration in the PEIS.

The primary goal of the SS&M program is to provide high confidence in the safety, security, and reliability of the nation's stockpile and to ensure the effectiveness of the nuclear deterrent while supporting arms-control and nonproliferation policy. Stockpile Stewardship includes activities required to maintain a high level of confidence in the safety, reliability, and performance of nuclear weapons in the absence of underground nuclear testing, and to be prepared to resume nuclear testing if so directed by the President. Stockpile Management activities include dismantlement, maintenance, evaluation, and repair or replacement of weapons in the existing stockpile.

The workshop will afford interested parties the opportunity to offer suggestions regarding the appropriate alternatives for performing the functions necessary to carry out the Department's stockpile stewardship and management missions. Through the National Environmental Policy Act (NEPA) review process, DOE proposes to develop a comprehensive strategy to

establish a long-range plan for Stockpile Stewardship and Management.

**DATES:** The workshop will be held on May 19, 1995, in the Main Auditorium of the DOE Forrestal Building (1000 Independence Ave, S.E., Washington D.C.) from 9:00 a.m.–4:00 p.m. Members of the public who would like to attend the pre-scoping workshop are asked to call the Office of Reconfiguration's toll-free telephone number at 1–800–776–2765 to pre-register.

**ADDRESSES:** General questions concerning the SS&M program can be asked by calling the toll-free telephone number, or by writing to: Stephen Sohinki, Director, Office of Reconfiguration, U.S. Department of Energy, P.O. Box 3417, Alexandria, VA 22302.

**FOR FURTHER INFORMATION CONTACT:** For general information on the DOE National Environmental Policy Act (NEPA) process, please contact: Carol M. Borgstrom, Director, Office of NEPA Policy and Assistance, EH–42, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, D.C. 20585, (202) 586–4600 or 1–800–472–2756.

**SUPPLEMENTARY INFORMATION:****Background**

In January 1991, the Secretary of Energy announced that the Department would prepare a PEIS examining alternatives for the reconfiguration of the Department's nuclear weapons complex (the Complex). The framework for the Reconfiguration PEIS was described in the January 1991 *Nuclear Weapons Complex Reconfiguration Study* (Reconfiguration Study), a detailed examination of alternatives for the future Complex. Because of the significant changes in the world since January 1991, especially with regard to projected future requirements for the United States' nuclear weapons stockpile, the Department concluded in October 1994 that the framework described in the Reconfiguration Study no longer fit current circumstances or supported any realistic proposal for reconfiguration of the Complex (see 59 FR 54175 (October 28, 1994)). Contributing factors to that conclusion included public comments at the September-October 1993 Reconfiguration PEIS scoping meetings, the fact that no production of new nuclear weapons was required for the foreseeable future, budget constraints, and the Department's decision to prepare a separate PEIS on Storage and Disposition of Weapons-Usable Fissile Nuclear Materials (Notice of Intent published June 21, 1994, 59 FR 17344).
