ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[AZ 47-1-6945b; FRL-5191-2]

Proposed Approval of Implementation Plans; Arizona—State Implementation Plan Revision, Maricopa Nonattainment Area; Basic and Enhanced Inspection and Maintenance Program for Carbon Monoxide and Ozone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Arizona State Implementation Plan (SIP) which concern the implementation of both a basic inspection/maintenance (I/M) and enhanced I/M program to be implemented in ozone and carbon monoxide (CO) nonattainment areas of Arizona.

The intended effect of proposing approval of this SIP is to control emissions of CO and ozone precursors in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules section of this **Federal Register**, the EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not

institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed rule must be received in writing by June 7, 1995.

ADDRESSES: Written comments on this action should be addressed to: Roxanne Johnson, Mobile Source Section (A-2-1), Air and Toxics Division, U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, CA 94105.

Copies of the SIP revision and EPA's evaluation of the SIP are available for public inspection at EPA's Region 9 office during normal business hours. Copies of the submitted SIP revisions are also available for inspection at the following locations: Arizona Department of Environmental Quality, Air Quality Division, 3033 North Central Avenue, Phoenix, Arizona 85012, Telephone: (602) 207-2300.

FOR FURTHER INFORMATION CONTACT: Roxanne Johnson, Mobile Sources Section, A-2-1, Air and Toxics Division, U.S. Environmental Protection Agency, Region 9, 75 Hawthorne Street, San Francisco, CA 94105, Telephone: (415) 744-1225.

SUPPLEMENTARY INFORMATION: This document concerns an Arizona Department of Environmental Quality (ADEQ) SIP revision to implement a basic and enhanced I/M program in CO and ozone nonattainment areas of Arizona. Because the Arizona legislature required upgrades for an enhanced I/M program that began January 3, 1995 which is currently running and operating smoothly, and because the State submitted a fully approvable SIP revision, the EPA decided to approve and take direct final action on the SIP submittal. For further information, please see the information provided in the direct final action which is located in the Rules Section of this **Federal Register**.

Authority: 42 U.S.C. 7401-7671q.

Dated: April 5, 1995.

John Wise,

Acting Regional Administrator.
