## Bureau of Reclamation

### Draft Environmental Impact Report/ Environmental Impact Statement on the Western Suisun Marsh Salinity Control Project

**AGENCY:** Bureau of Reclamation, Interior.

**ACTION:** Notice of cancellation.

**SUMMARY:** The Bureau of Reclamation (Reclamation) and the California Department of Water Resources (DWR) are canceling plans to continue work under the National Environmental Policy Act and the California Environmental Quality Act on the environmental impact report/environmental impacts statement (EIR/EIS) for the Western Suisun Marsh Salinity Control Project (Project), Plan of Protection for the Suisun Marsh, Phases III and IV. The EIR/EIS is being cancelled because it is unlikely that additional large-scale facilities are necessary for controlling salinity in the Suisun Marsh due to the provisions in the December 1994 draft Delta water quality control plan.

**FOR FURTHER INFORMATION CONTACT:** Mr. Will Keck, Mid-Pacific Region, Bureau of Reclamation, Attention: MP-401, 2800 Cottage Way, Sacramento, CA 95825-1898; telephone: (916) 979-2321; or Mr. Dwight P. Russell, Environmental Services Office, California Department of Water Resources, 3251 S Street, Sacramento, CA 95816-7017; telephone: (916) 227-7529.

**SUPPLEMENTARY INFORMATION:** The notice of intent was published in 55 FR 47481, Nov. 13, 1990. The Project was aimed at lowering channel water salinity in the western portion of the Suisun Marsh. The construction of several ditches and culverts were being studied as part of the proposed action. With the release in

December 1994 of the draft Water Quality Control Plan for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary, and DWR's estimate of resulting salinity conditions in the Suisun Marsh, it is unlikely that additional large-scale facilities will be necessary for salinity control in the Suisun Marsh. DWR and Reclamation will evaluate if additional actions are needed for meeting western Suisun Marsh channel water salinity standards after the Suisun Marsh Ecological Work Group completes evaluating the basis for Suisun Marsh standards and recommends new standards.

Dated: April 17, 1995.

**Dan M. Fults,**

*Acting Regional Director.*

## Fish and Wildlife Service

### Availability of Environmental Assessments/Habitat Conservation Plans and Receipt of Applications for Incidental Take Permits for Construction of Single-Family Residences Within Travis County, TX

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Notice.

**SUMMARY:** Bette Craddock Pressler (Applicant) has applied to the Fish and Wildlife Service (Service) for incidental take permits pursuant to Section 10(a) of the Endangered Species Act (Act). The requested permits, which are for a period of 5 years, would authorize the incidental take of the endangered golden-cheeked warbler (*Dendroica chrysoparia*). The proposed take would occur as a result of the construction on one single-family residence on each lot within Travis County, Texas. The Applicant has been assigned the following permit numbers: Lot number 6—PRT-800439, Lot number 5—PRT-800438, Lot number 4—PRT-800440, Lot number 3—PRT-800441, Lot number 1—PRT-800442, and Lot number 2—PRT-800443.

The Service has prepared the Environmental Assessments/Habitat Conservation Plans (EA/HCP's) for the incidental take applications. A determination of jeopardy to the species or a Finding of No Significant Impact (FONSI) will not be made before 30 days from the date of publication of this notice. This notice is provided pursuant to Section 10(c) of the Act and National Environmental Policy Act regulations (40 CFR 1506.6).

**DATES:** Written comments on the application and EA/HCP should be received by June 8, 1995.

**ADDRESSES:** Persons wishing to review the application(s) may obtain a copy by writing to the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87102. Persons wishing to review the individual EA/HCP(s) may obtain a copy by contacting Joseph E. Johnston or Alma Barrera, Ecological Services Field Office, 10711 Burnet Road, Suite 200, Hartland Bank Building, Austin, Texas 78758 (512/490-0063).

Documents will be available for public inspection by written request, by appointment only, during normal business hours (9:00 to 4:30). Written data or comments concerning the application(s) and EA/HCP(s) should be submitted to the Acting Field Supervisors, Ecological Services Field Office, Austin, Texas (see ADDRESSES above). Please refer to applicable Permit Numbers when submitting comments.

**FOR FURTHER INFORMATION CONTACT:**

Joseph E. Johnston or Alma Barrera at the above Austin Ecological Service Field Office.

**SUPPLEMENTARY INFORMATION:** Section 9 of the Act prohibits the "taking" of endangered species such as the golden-cheeked warbler. However, the Service, under limited circumstances, may issue permits to take endangered species such as the golden-cheeked warbler. However, the Service, under limited circumstances, may issue permits to take endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22.

Bette Craddock Pressler plans to construct single-family residences on Lots 1-6 on Red Bud Trail, West Lake Hills, Austin, Travis County, Texas. This action will eliminate less than one-half acre of land and indirectly impact less than one additional acres of golden-cheeked warbler habitat per residence. The applicant proposes to compensate for this incidental take of golden-cheeked warbler habitat by placing \$1,500 for each residence in the City of Austin Balcones Canyonlands Conservation Fund to acquire/manage lands for the conservation of the golden-cheeked warbler.

Alternatives to this action were rejected because selling or not developing the subject property with
