

development and used as future planting seed. No seed may be used for food or feed, and all other plant material must be destroyed.

Calgene's EUP program will include the following three experiments designed to evaluate the performance of the expressed proteins against lepidopteran pests: Strains Tests; Breeding Nurseries, and Research Tests.

EPA's scientific staff has evaluated the potential for adverse effects on nontarget species and the environment as a result of this EUP. The Agency does not foresee any human health risks or effects resulting from the proposed field tests because there will be minimal human exposure.

Further, EPA foresees no significant environmental impact resulting from the testing under this EUP because it is of limited acreage and duration and because minimal offsite movement (approximately three percent or less) of expressed proteins is expected to occur. Yet a potential exists for offspring of commercially grown cotton to become feral (wild), and these wild offspring might have a selective advantage due to the addition of these insect resistance traits in their genetic make-up; however, feral cotton has many additional constraints, such as hardness, habit, and reproductive limits, which have prevented it from becoming aggressive or weedy despite cotton's long cultivation in the continental United States. Hence, the expression of B.t.k. protein or NPT II marker enzyme genes is expected to neither create nor aggravate any weedy or aggressive characteristics in cotton grown for this EUP.

Because the field tests will be conducted in areas of the 11 States where no known populations of endangered lepidopteran species exist, no risk is expected as a result of the proposed field tests. In addition, because of the low exposure due to the limited acreage and duration of the EUP, EPA feels that there will not be a situation warranting a formal review under the Endangered Species Act for any endangered mammals, birds, invertebrates, plants or aquatic species.

II. Labeling

The labeling states the following:

This package contains insect resistant cottonseed expressing a *Bacillus thuringiensis* subsp. *kurstaki* (B.t.k.) protein effective in controlling certain lepidopteran insects. For use only at an application site of a cooperator and in accordance with the terms and conditions of the Experimental Use Permit. This labeling must be in the possession of the user at the time of planting. Not for sale to any person other than a

participant or cooperator of the EPA approved Experimental Use Permit Program. The contents may only be used according to the approved EUP program. Cooperators must have at least one copy of each applicable protocol prior to initiating any research with the contents.

III. Public Comments

A record has been established for this document under docket number "OPP-50806A" (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at:

opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this document, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

The Agency announced receipt of Calgene's application in the **Federal Register** of March 1, 1995 (60 FR 11904). A 30-day public comment period was provided. No comments were received.

Dated: April 28, 1995.

Janet L. Andersen,

Director, Biopesticides and Pollution Prevention Division, Office of Pesticide Programs.

Miles Inc.; Renewal of Temporary Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has renewed temporary tolerances for residues of the insecticide *O*-[2-(1,1-Dimethylethyl)-5-pyrimidinyl] *O*-ethyl *O*-(1-methylethyl)phosphorothioate and for residues of the insecticide cyfluthrin in or on certain raw agricultural commodities.

DATES: These temporary tolerances expire December 31, 1995.

FOR FURTHER INFORMATION CONTACT: By mail: Robert Forrest, Product Manager (PM) 14, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 219, CM#2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-6600; e-mail: forrest.robert@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA issued a notice, published in the **Federal Register** of June 8, 1994 (59 FR 29608), announcing that temporary tolerances had been established for residues of the insecticide *O*-[2-(1,1-Dimethylethyl)-5-pyrimidinyl] *O*-ethyl *O*-(1-methylethyl)phosphorothioate in or on the raw agricultural commodities corn, sweet (K + CWHR); corn, grain, field and pop; corn, forage and fodder, field, pop, and sweet at 0.01 part per million (ppm), and for residues of the insecticide cyfluthrin Cyano-(4-fluoro-3-phenoxyphenyl)methyl-3-(2,2-dichloroethenyl)-2,2-dimethyl-cyclopropanecarboxylate in or on these raw agricultural commodities at 0.01 ppm. These tolerances are being renewed in response to pesticide petitions (PP) 2G4048 and 2G4049, submitted by Miles Inc., Agricultural Division, P.O. Box 4913, Kansas City, MO 64120-0013.

The company has requested a 1-year renewal of the temporary tolerances for residues of the insecticides to permit the marketing of the above raw agricultural commodities when treated in accordance with the provisions of the experimental use permit 3125-EUP-202, which is being renewed under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136). The scientific data reported and other relevant material were evaluated, and it was determined that renewal of

the temporary tolerances will protect the public health. Therefore, the temporary tolerances have been renewed on the condition that the pesticide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active ingredient to be used must not exceed the quantity authorized by the experimental use permit.

2. Miles Inc., must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

These tolerances expire December 31, 1995. Residues not in excess of these amount remaining in or on the above raw agricultural commodities after this expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerances. These tolerances may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirements of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-

354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

Authority: 21 U.S.C. 346a(j).

Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act

(FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations.

DATES: Unless a request is withdrawn by August 8, 1995, orders will be issued canceling all of these registrations.

FOR FURTHER INFORMATION CONTACT: By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier delivery and telephone number: Room 216, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-5761.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, provides that a pesticide registrant may, at any time, request that any of its pesticide registrations be canceled. The Act further provides that EPA must publish a notice of receipt of any such request in the **Federal Register** before acting on the request.

II. Intent To Cancel

This Notice announces receipt by the Agency of requests to cancel some 20 pesticide products registered under section 3 or 24(c) of FIFRA. These registrations are listed in sequence by registration number (or company number and 24(c) number) in the following Table 1.

TABLE 1.—REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product name	Chemical name
000264-00313	Sevin Brand 50% Dust Base Carbaryl Insecticide	1-Naphthyl-N-methylcarbamate
000352-00493	Vendex 4L Miticide	Hexakis (2-methyl-2-phenylpropyl) distannoxane
000352 NC-84-0002	Dupont Lexone DF Weed Killer	1,2,4-Triazin-5(4H)-one, 4-amino-6-(1,1-dimethylethyl)-3-(methylthio)-
000352 OR-91-0001	Vendex 4L Miticide	Hexakis (2-methyl-2-phenylpropyl) distannoxane
000352 WA-88-0010	Du Pont Vendex 4L Miticide	Hexakis (2-methyl-2-phenylpropyl) distannoxane
000352 WA-91-0001	Vendex 4L Miticide	Hexakis (2-methyl-2-phenylpropyl) distannoxane
001448-00105	Busan 11-M3	Barium metaborate
001448-00106	Busan 11-M4	Barium metaborate
001769-00098	Swat Insect Repellent	Dipropyl isocinchomeronate N-Octyl bicycloheptene dicarboximide N,N-Diethyl-meta-toluamide and other isomers
002230-00043	Pan-A-Sol	Ethanol Hydrogen chloride Alkyl* dimethyl benzyl ammonium chloride *(50%C ₁₄ ,40%C ₁₂ , 10%C ₁₆)
004822-00079	Neopynamin	(1-Cyclohexene-1,2-dicarboximido) methyl 2,2-dimethyl-3-(2-methylpropenyl)cycloprop
007689-00014	Wardley's Liquid Allclear	2-Chloro-4,6-bis(ethylamino)-s-triazine
007689-00016	Allclear II Algicide for Outdoor Fishpools	2-Chloro-4,6-bis(ethylamino)-s-triazine
007689-00017	Allclear II Aquarium Algicide	2-Chloro-4,6-bis(ethylamino)-s-triazine
