Paiute Pipeline Co.; Notice of Proposed Changes in FERC Gas Tariff

May 4, 1995.

Take notice that on May 2, 1995, Paiute Pipeline Company (Paiute), tendered for filing to be a part of its FERC Gas Tariff, Second Revised Volume No. 1-A, the following tariff sheets, to become effective June 1, 1995:

First Revised Sheet No. 22

First Revised Sheet No. 51

First Revised Sheet No. 81

Third Revised Sheet No. 161

Paiute states that it is submitting the proposed tariff sheets in order to implement an element of a settlement agreement recently reached by the active parties with respect to Paiute's pending tariff filing in Docket No. RP95-55-000. According to Paiute, as part of that resolution, the parties have agreed to a realignment of the firm shippers' summer period monthly billing determinants over a period of several years, including the summer period for 1995. Paiute indicates, however, that because its customers' monthly billing determinants are treated as their contract entitlements, the revised billing determinants agreed to by the firm shippers for the 1995 summer period need to be filed and made effective immediately.

Paiute states, therefore, that it is submitting the proposed tariff sheets to reflect the agreed-upon billing determinants to be in effect as of June 1995, and to revise certain tariff language to correspond to the changes in billing determinants.

Paiute states that copies of the filing were served upon all of Paiute's

customers and affected state regulatory commissions, and upon all parties on the service list in Docket No. RP95-55-000.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before May 11, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding.

Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the public reference room.

[Docket No. RP95-267-000]

Transwestern Pipeline Company; Notice of Section 4 Filing

May 4, 1995.

Take notice that on May 2, 1995, Transwestern Pipeline Company (Transwestern), tendered for filing with the Federal Energy Regulatory Commission (Commission) in the above-referenced proceeding a Section 4 filing.

Transwestern states that it has previously made three abandonment filings (in Docket Nos. CP94-211, CP95-153 and CP95-70) for which Transwestern is submitting the Section 4 filing to notify the Commission of the proposed termination of gathering services prior to the effective date of such terminations. Transwestern states it is filing concurrently herewith a Stipulation and Agreement in Docket No. RP95-267 resolving, among other things, outstanding regulatory issues in the proceedings referenced in the Stipulation including Docket Nos. CP94-211, CP95-153 and CP95-70.

Transwestern also states that as a result of restructuring under Order No. 636, Transwestern has determined that the facilities listed in the abandonment filings are no longer necessary to Transwestern's primary function of providing transportation services, and, as an interstate pipeline subject to the Commission's full regulatory authority, Transwestern cannot compete effectively with the unregulated entities providing similar gathering services with similar facilities. These facilities, states Transwestern, could be operated more efficiently by a non-regulated entity whose primary business is to provide production and gathering services. Therefore, Transwestern states that it proposes to terminate services that are performed on those facilities.

Transwestern states that copies of the filing were served on its gas utility customers, interested state commissions, and all parties to this proceeding.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, DC, 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. All such motions or protests should be filed on or before May 11, 1995. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies

of this filing are on file with the Commission and are available for public inspection.
