### Correction to Previous Notice of Contractor Access to Confidential Business Information Under the Clean Air Act

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Correction.

**SUMMARY:** On April 17, 1995, the EPA published a **Federal Register** Notice announcing contractor access to confidential business information (60 FR 19250). This notice incorrectly listed contract numbers and contract expiration dates. The correct information is as follows.

The EPA has authorized the following subcontractors for access to information that has been, or will be, submitted to EPA under section 114 of the Clean Air Act (CAA) as amended. (1) EC/R, Inc., 3721-D University Drive, Durham, NC 27707, contract number 68D10118; (2) Alpha Gamma Technologies, Inc., 900 Ridgefield Drive, Suite 350, Raleigh, NC 27609, contract number 68D10117; (3) Energy and Environmental Research Corporation (EER), 3710 University Drive, Suite 160, contract 68D10117. The prime contractor for contract 68D10117 is Radian Corporation, PO Box 13000, RTP, NC 27709 and the prime contractor for contract 68D10118 is Research Triangle Institute, PO Box 12194, RTP, NC 27709. Both of these contracts expire on August 1, 1996, thus CBI access under these contracts expires at that time as well.

**DATES:** Access to confidential data submitted to EPA will occur no sooner than ten days after issuance of this notice.

**FOR FURTHER INFORMATION CONTACT:** Doris Maxwell, Document Control Officer, Office of Air Quality Planning

and Standards (MD-13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711, (919) 541-5312.

Dated: May 1, 1995.

**Richard D. Wilson,**

Acting Assistant Administrator for Air and Radiation.

### Issuance of an Experimental Use Permit for a Transgenic Plant Pesticide

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** On April 13, 1995, EPA issued EPA Experimental Use Permit (EUP) to Calgene Inc. to conduct field testing of a transgenic plant pesticide. EPA has determined that this permit may be of regional and national significance. The Agency evaluated the data submitted by Calgene and, based on these data and other available data, could foresee no significant risk to humans or to nontarget organisms from this group of field tests as proposed by Calgene. In accordance with 40 CFR 172.11(a), the Agency is soliciting public comments.

**DATES:** Written comments must be received on or before June 9, 1995.

**ADDRESSES:** Written comments, in triplicate should bear the docket control number OPP-50806A and be submitted to: Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person bring comments to Rm. 1128, Crystal Mall #2, 1921 Jefferson Davis Highway, Crystal City, VA.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: opp-docket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will also be accepted on disks in WordPerfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number "OPP-50806A" No Confidential Business Information (CBI) should be submitted through e-mail. Electronic comments on this document may be filed online at many Federal Depository Libraries. Additional information on electronic submissions can be found in unit III of this document.

Information submitted in any comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice to the submitter. Written comments will be available for public inspection in Rm. 1128 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

**FOR FURTHER INFORMATION CONTACT:** By mail: Linda A. Hollis, Biopesticides and Pollution Prevention Division (7501W), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460, Office location and telephone number: CS1 5th floor, 2800 Crystal Drive, Crystal City, VA (703-308-8733).

#### SUPPLEMENTARY INFORMATION:

##### I. EUP Program

The EUP was issued to Calgene Inc., 1920 5th St., Davis, CA 95616. The permit was assigned EUP number 65247-EUP-1 and issued for 1 year, beginning April 13, 1995 and ending April 15, 1996. Calgene will be testing a transgenic insect resistant cotton plant which expresses a *Bacillus thuringiensis* subsp. *kurstaki* (B.t.k.) cryIA(c) segment within the plant cells. *Bacillus thuringiensis* subsp. *kurstaki* protein will be present at no more than .001 percent of the total weight of the cottonseed. The cryIA(c) gene of *Bacillus thuringiensis* is transferred to cotton via the Ti plasmid of *Agrobacterium tumefaciens*, a vector system which has been used to stably transform many plant pesticides. All transgenic plants to be used in this field trial are upland cotton *Gossypium hirsutum*.

A total of 2,460 pounds of transgenic cottonseed will be planted on 2.0 to 27.0 acre sites for a total of 67 acres transgenic planting. Calgene's test sites are located in the following States: Alabama, Arizona, Arkansas, Georgia, Louisiana, Mississippi, Missouri, North Carolina, South Carolina, Tennessee and Texas. Upon completion of data collection and/or harvest, all cotton plants in the transgenic trial will be destroyed by incorporation into the soil. Seed harvested from the plant breeding nursery and strains test may be retained for use in further research and
