SUPPLEMENTARY INFORMATION: The Animal and Plant Health Inspection Service (APHIS) holds an annual public meeting on veterinary biologics in Ames, Iowa. The meeting provides an opportunity for the exchange of information between APHIS representatives, producers of veterinary biological products, and interested persons on issues of common concern. APHIS is in the process of planning the agenda for a sixth annual public meeting on veterinary biological

products to be held in Ames, Iowa, on August 1-2, 1995.

As yet, the agenda for the sixth annual meeting is not complete. APHIS is seeking suggestions for meeting topics from producers and the interested public before finalizing the agenda. Topics that have been suggested include: (1) Program updates; (2) repackaging; (3) in vitro potency testing; and (4) total quality management.

Consistent with efforts to reinvent government and to improve how programs are delivered, we would like to invite licensed producers of veterinary biological products and other interested persons to present their ideas and suggestions concerning new approaches to quality assurance for veterinary biologics. We are interested in getting your ideas on how the veterinary biologics program could be changed using concepts of quality assurance to enhance our ability to ensure the purity, safety, potency, and efficacy of biological products.

Please submit, on or before May 31, 1995, proposed titles for such presentations, the name(s) of the presenter(s), the approximate amount of time that will be needed for presentation(s), and any additional suggested meeting topics (for both breakout and general sessions) to the person listed under
