BILLING CODE 6210-01-F

Omega Financial Corp.; Formation of, Acquisition by, or Merger of Bank Holding Companies

The company listed in this notice has applied for the Board's approval under section 3 of the Bank Holding Company Act (12 U.S.C. 1842) and § 225.14 of the Board's Regulation Y (12 CFR 225.14) to become a bank holding company or to acquire a bank or bank holding company. The factors that are considered in acting on the applications are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application is available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that application or to the offices of the Board of Governors. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Comments regarding this application must be received not later than June 5, 1995.

A. Federal Reserve Bank of Philadelphia (Michael E. Collins, Senior Vice President) 100 North 6th Street, Philadelphia, Pennsylvania 19105:

1. *Omega Financial Corp.*, State College, Pennsylvania; to acquire 100

percent of the voting shares of Montour Bank Danville, Pennsylvania.

Board of Governors of the Federal Reserve System, May 8, 1995.

Jennifer J. Johnson,

Deputy Secretary of the Board.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

[(Program Announcement No. ACYF-HS 93600-951A)]

A Head Start on Science Demonstration Project; Grant Availability

AGENCY: Administration on Children, Youth and Families (ACYF), Administration for Children and Families, HHS.

ACTION: Extension of due dates for receipt of applications for the program announcement cited above.

SUMMARY: This notice amends program announcement number 93600-951 published in the **Federal Register** on February 1, 1995, by extending the due date for submission of applications to May 16, 1995.

FOR FURTHER INFORMATION CONTACT: Jean Simpson (202) 205-8421.

SUPPLEMENTARY INFORMATION: On February 1, 1995 the Administration on Children, Youth and Families published a program announcement in the **Federal Register** soliciting applications from

colleges or universities to demonstrate and evaluate a summer institute prototype on their campus during the summers of 1996 and 1997 on the topic of "A Head Start on Science", with follow up assistance to graduates as they implement their new skills at their local Head Start programs. In year two of the grant period, the successful applicant also will recruit, fund and mentor another teacher education college or university to implement the "Head Start on Science" approach.

Because of the recent disaster in Oklahoma City which disrupted normal work schedules for the larger community, we are allowing all prospective applicants more time to submit their applications. Therefore, we are extending the due dates for submission of applications by two weeks to May 16, 1995.

(Catalog of Federal Domestic Assistance Program Number 93.600, Project Head Start)

Dated: May 8, 1995.

Olivia A. Golden,

Commissioner, Administration on Children, Youth and Families.

BILLING CODE 4184-01-P

Centers for Disease Control and Prevention

[Announcement 549]

Program for Playground Safety

Introduction

The Centers for Disease Control and Prevention (CDC), announces the availability of fiscal year (FY) 1995 funds for a cooperative agreement for the establishment of a Program for Playground Safety.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority area of Unintentional Injuries. (For ordering a copy of "Healthy People 2000," see the section **Where To Obtain Additional Information.**)

Authority

This program announcement is authorized under Sections 301, 317, and 391-394 (42 U.S.C. 241, 247b, and 280b-280b-3) of the Public Health Service Act as amended.

Smoke-Free Workplace

PHS strongly encourages all grant recipients to provide a smoke-free

workplace and to promote the nonuse of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

Eligible Applicants

Applications may be submitted by public and private, nonprofit and for-profit organizations and governments and their agencies. Thus, universities, colleges, research institutions, hospitals, other public and private organizations, State and local health departments or their bona fide agents or instrumentalities, federally recognized Indian tribal governments, Indian tribes or Indian tribal organizations, and small, minority- and/or women-owned businesses are eligible to apply.

Availability of Funds

Approximately \$550,000 is available in FY 1995 to fund one award. It is expected that the award will begin on or about September 30, 1995, and will be made for a 12-month budget period within a project period of up to three years. Funding estimates may vary and are subject to change.

A continuation award within the project period will be made on the basis of satisfactory progress and the availability of funds.

Purpose

The purpose of this cooperative agreement is to establish a Program for Playground Safety to assume a lead capacity for prevention and control of playground injuries to children and the promotion of safer playgrounds.

Program Requirements

In conducting activities to achieve the purpose of this program, the recipient will be responsible for the activities under A. (Recipient Activities), and CDC will be responsible for the activities listed under B. (CDC Activities).

A. Recipient Activities

1. Develop a national agenda and plan for the prevention of playground injuries. Steps involved in producing this plan shall include:

a. Prepare a state of the art review of playground injuries and known and effective strategies for their prevention. Production of this review should involve key researchers and leaders in the field of playground injury prevention, and include relevant disciplines such as behavioral science, child development, engineering, leisure

studies, environmental sciences, and public health;

b. Convene one or more meetings of relevant parties, experts and organizations to discuss the review, assess the current issues, set and prioritize goals, and consider methods to achieve those goals;

c. Produce a draft national plan and circulate it for comment among relevant parties and;

d. Finalize, publish and disseminate the plan.

Expected collaborators in the development, review, and endorsement of the plan include researchers, injury control specialists (e.g., CDC-funded Injury Control Research Center staff), playground operators (e.g., Department of Parks and Recreation staff, Department of Education staff, day care center operators), manufacturers of playground equipment and surfaces, playground regulators, and playground users. The plan should identify surveillance, research, evaluation, training, and programmatic needs and activities to reduce playground injuries. In particular, the plan should include a research agenda that defines the priority research questions to be answered and the methods to answer them, including the variables to be measured, the methods for measuring those variables, the type of study design and necessary size of the study, and the costs of such a study. (It is not anticipated that the recipient will undertake all of the planned research.) Data needs for all elements (e.g., surveillance, training) should be identified. The plan should contain recommendations targeted at playground operators, manufacturers, regulators, users, and other relevant parties. The plan should include estimates of the necessary resources for each aspect of the plan, as well as a timetable. The plan should be completed within one year of funding to help guide future activities.

Activities 2-5 below may be completed at any time during the three-year project period.

2. Establish a clearinghouse for materials on the prevention of playground injuries and safe playgrounds. This activity includes identifying, collecting, and classifying existing materials on playground design and safety and playground injury prevention. The activity also includes identifying and cataloging nationwide activities and intervention projects related to playground injury prevention and safety. These materials should be made easily available to others. The applicant should provide the public, schools, municipalities and others with a forum, including research findings, for
