

an antitheft device with the effectiveness of the theft prevention standard. The statute clearly invites such a comparison, which the agency has made on the basis of the limited data available. With implementation of the requirements of the "Anti Car Theft Act of 1992," NHTSA anticipates more probative data upon which comparisons may be made.

NHTSA notes that if GM wishes in the future to modify the device on which this exemption is based, the company may have to submit a petition to modify the exemption. Section 543.7(d) states that a Part 543 exemption applies only to vehicles that belong to a line exempted under this part and equipped with the antitheft device upon which that line's exemption is based. Further, § 543.9(c)(2) provides for the submission of petitions "[t]o modify an exemption to permit the use of an antitheft device similar to but differing from the one specified in that exemption."

The agency wishes to minimize the administrative burden which § 543.9(c)(2) could place on exempted vehicle manufacturers and itself. The agency did not intend in drafting Part 543 to require the submission of a petition for every change to the components or design of an antitheft device. The significance of many such changes could be *de minimis*. Therefore, NHTSA suggests that if the manufacturer contemplates making any changes the effects of which might be characterized as *de minimis*, it should consult the agency before preparing and submitting a petition to modify.
